2014

Alaska Forum on the Environment

February 3-7, 2014
Dena’ina Convention Center
Anchorage, Alaska
Earn College Credit Attending Alaska Forum on the Environment with the University of Alaska Fairbanks Bristol Bay Campus

ENVI F193P: Viewpoints on Alaskan Environmental Issues 2014

Earn one college credit this year at the 2014 Alaska Forum on the Environment through University of Alaska Fairbanks Bristol Bay Campus. The course introduces many of the ways science and public policy is presented across disciplines and how environmental data is collected and used. Course participants interact with environmental studies experts and policy makers from across Alaska by participating in AFE sessions and discussions. To earn credit participants must actively participate in conference activities for at least 3 days.

This course fee is being offered at a reduced cost of $75 (normally $168) for registered AFE Participants!

Information and course materials are provided at the UAF Bristol Bay Booth #27 or inquire at the AFE Registration Table. Contact at the conference: Todd Radenbaugh, Tom Marsik, Adam Kane or Michael Golub.

Do you need a Continuing Education Credit? This course may qualify for a continuing education credit, ask us for more information. (Booth #27)
The Alaska Forum on the Environment Mission

“Alaskans working together to promote a clean, healthy environment through communication and education.” The Alaska Forum and our programs or projects will not take political or advocacy positions. The Alaska Forum works to promote a more productive and efficient relationship between government agencies, businesses, organizations, tribes, and the public by:

• developing a more common understanding and educational foundation;
• providing opportunity for the exchange of information and experiences; and
• understanding the diversity of opinions and concerns of others.

   Tubughnenq 5
Tuesday, February 4

MORNING 8:00 AM - 8:45 AM
- MORNING KEYNOTE EVENT: Dennis McLerran, Administrator, EPA Region 10
  Tikahtnu A&B
- Assessing Risk Perception And Community Disaster Resilience
  Kahtnu 1
- Environmental Cleanup Response To The 2013 Galena Flood
  Tikahntu D
- EPA Tribal Coordinators: Regional Roundtable Discussion
  Tikahntu C
- High School Science Programs For Rural Students
  Tubughneng 4
- How To Prepare For An Occupation In Sustainable Energy
  Kahtnu 2
- Update On The US Environmental Protection Agency's Bristol Bay Assessment
  Tubughneng 5
- Invasive Species In Rural Alaska (Part 1 of 2)
  K'enakatnu Boardroom
- Statewide Marine Debris Removal Efforts (Part 1 of 2)
  Tubughneng 3
- What Do Alaskans Need? A Review Of Documents Addressing Research Needs Related To Climate Change
  Tikahntu E

10:30 AM - 11:45 AM
- Ecosystem Assessments And Major Policy Failures
  Kahtnu 1
- Ensuring Field And Lab Competency Under Indian General Assistance Program Baseline Monitoring Projects
  Tikahntu C
- How To Talk To Your Community About Wood Smoke Risks And Mitigation Strategies
  Tubughneng 5
- How Will Climate Change Affect Cultural Resources And Historic Properties?
  Tikahntu E
- Hydraulic Fracturing Basics
  Kahtnu 2
- Invasive Species In Rural Alaska (Part 2 of 2)
  K'enakatnu Boardroom
- Statewide Marine Debris Removal Efforts (Part 2 of 2)
  Tubughneng 3
- The Pebble Project: Schedule, Social Impacts And Mining Issues
  Tikahntu D
- Youth And Adult Environmental Project Showcase (Part 2 of 2)
  Tubughneng 4

AFTERNOON 2:00 PM - 3:15 PM
- Adapting To Climate Change In The Kuskokwim River Watershed
  Tikahntu E
- Commercial Building Energy Efficiency As A Catalyst For Sustainability
  Kahtnu 1
- Creating Sustainable Communities
  Kahtnu 2
- Erosion Responses And Resources
  Tikahntu D
- National Park Service In Alaska: What Is It And Why Is Their Work Important To You?
  Tubughneng 5
- Susitna-Watana Hydro Project: Panel Discussion
  K'enakatnu Boardroom
- Tribal Water Quality Projects
  Tikahntu C
- Tsunami Marine Debris Updates
  Tubughneng 3
- Wildlife Tracking And Trail Cameras!
  Tubughneng 4

3:30 PM - 4:45 PM
- Arctic Ecosystem Integrated Survey: A Marine Survey Of The Northern Bering & Chukchi Seas
  Tubughneng 3
- Assessing Wetland Functions & Services For National Resource Conservation Service
  Kahtnu 1
- Fukushima Radiation- Putting Things Into Perspective
  Tikahntu E
- Essential Ingredients For Obtaining Federal Funding: Indian General Assistance Program
  K'enakatnu Boardroom

- Permitting Alaska’s Hard-Rock Mines
  Kahtnu 2
- SNOWY: A Mixed-Methods Approach To Climate Change On The Lower Yukon River
  Tikahntu D
- Sustainable Living: Rhodiloa Rosea Potential For High Latitude Agriculture And Sustainable Firewood
  Tubughneng 5
- Tips For Developing A Successful Community Environmental Program For Teens
  Tubughneng 4

EVENING 5:00 PM - 6:30 PM
- EVENING SOCIAL EVENT: Hosted By The EPA Regional Tribal Operations Committee
  Tikahntu A&B
Wednesday, February 5

MORNING 8:00 AM - 8:45 AM
☐ MORNING KEYNOTE EVENT: Dr. Thomas P. Quinn, University of Washington
Kahtnu A&B

9:00 AM - 10:15 AM
☐ A Perspective: The Case For Less Emphasis On Sub-Slab Data For The Vapor Intrusion Pathway
Kahtnu 1
☐ AKMAP Survey Results From Arctic Coastal Plains Surveys (Wetlands & Lake)
Tubughnenq 3
☐ Emergency Preparedness For Rural Residents And Communities To Earthquakes, Wildfire & Extreme Weather
Tubughnenq 4
☐ Environmental Restoration Efforts At Federal Sites In Alaska
Tikahtnu C
☐ Mining In Mongolia: Oyu Tolgoi
Kahtnu 2
☐ Point Thomson Project Update
Tikahtnu D
☐ Roads To Resources And Sustainable Economies In Alaska
K’enakatnu Boardroom
☐ Shipping Out Hazardous And Potentially Harmful Materials From Rural Alaska - Success Stories
Tubughnenq 5
☐ The Role Of Estuaries In Ecosystem Health In Alaska
Tikahtnu E

10:30 AM - 11:45 AM
☐ Kodiak’s Renewable Energy Revelation
Kahtnu 1
☐ Reciprocating Internal Combustion Engines, Boilers and Incinerators
Tubughnenq 3
Tubughnenq 4
☐ Alaskan Estuaries: What We Know And Need To Know
K’enakatnu Boardroom
☐ Amchitka Underground Nuclear Test Site Monitoring
Tikahtnu C
☐ Climate Adaptation Strategies: An Intergenerational Effort To Combine Indigenous Knowledge & Science
Tikahtnu E
☐ Experimental Use Of Tundra Sod For Rehabilitation At The Point Thomson Project
Tikahtnu D
☐ Fail To Plan – Plan To Fail: Seasonal Planning For Rural Alaska Landfills
Tubughnenq 5
☐ Regulating Coal Mines
Kahtnu 2

AFTERNOON 2:00 PM - 3:15 PM
☐ Beyond Indian General Assistance Program: Moving From Capacity Building To Implementation
Tikahtnu C
☐ Building Environmental Occupation Endorsements For A Rural Workforce
K’enakatnu Boardroom
☐ Climate Change Adaptation: Linking Alaskan Communities With Resources To Help Meet Challenges
Tikahtnu E
☐ DEC Water Quality Standards Triennial Review
Tubughnenq 4
☐ Film Festival
Tikahtnu D
☐ Hands On Solid Waste Presentation
Tubughnenq 5
☐ How to Use Department Of Environmental Conservation Data For Environmental Mapping
Kahtnu 1
☐ Tribal Consultation - Agency Consultation Processes And Projects
Kahtnu 2
☐ Unmanned Aircraft Systems In Alaska And The Arctic
Tubughnenq 3

3:30 PM - 4:45 PM
☐ Alaska Water Quality Standards Antidegradation Policy Implementation Update
Kahtnu 1
☐ Fieldscope Database For Social Networking, Community Research & Environmental Data Mapping
Tubughnenq 4
☐ Film Festival
Tikahtnu D
☐ Indian General Assistance Program (GAP) Roundtable--Mongolia To Alaska: A Young Woman’s Journey
Tikahtnu C
☐ How Shaktoolik Plans To Survive Flooding And Erosion In The Face Of A Changing Climate
K’enakatnu Boardroom
☐ Our Work, Our Life: Fisheries, Seafood And Maritime Careers In Alaska
Tubughnenq 3
☐ Purchasing Heavy Equipment - Things To Look Out For When Selecting
Tubughnenq 5
☐ Region 10 US Environmental Protection Agency’s Adaptation Planning
Tikahtnu E
☐ Tribal Consultation - How Tribal Governments Can Make Consultation More Effective
Kahtnu 2
Thursday, February 6

MORNING
8:00 AM - 11:45 AM
- Statement Of Cooperation - Executive Steering Committee Meeting
  K'enakatnu Boardroom

8:00 AM - 8:45 AM
- MORNING KEYNOTE EVENT: Craig Welch, Environmental Reporter For The Seattle Times
  Tikhahtnu A&B

9:00 AM - 10:15 AM
- Basic Emergency Management Principles
  Kahtnu 1
- Bedbugs In Alaska
  Kahtnu 2
- Dispersant Use Policy In Alaska
  Tubughnenq 5
- Documenting Subsistence Uses And Resources
  Tubughnenq 3
- Film Festival
  Tikhahtnu D
- Out-Of-State And Natural Contributions To Baseline Atmospheric Mercury Deposition In Alaska
  Tubughnenq 4
- Problems And Solutions For Dust On Village Roads
  Tikhahtnu C
- Traditional Observations Of Climate Change

10:30 AM - 11:45 AM
- AK Regional Response Team: Alaska Unified Plan Updates And Tribal Government Interaction Guidelines
  Tubughnenq 5
- Creating Safe And Healthy Tribal Homes
  Tikhahtnu C
- Film Festival
  Tikhahtnu D
- Fish In Alaska: How Environmental Contaminants Impact Them & How Their Health Impacts Our Health
  Tikhahtnu E
- How Are Your Berries?
  Kahtnu 1
- Managing Household Hazardous Waste & RCRA Regulations As They Pertain To Universal Waste & Used Oil
  Kahtnu 2
- Renewable Energy Projects In Alaska
  Tubughnenq 3
- Small Community Emergency Response Plan (SCERP)
  Tubughnenq 4

AFTERNOON
12:00 PM - 1:45 PM
- NOON KEYNOTE EVENT: John Huston, Explorer
  Tikhahtnu A&B

2:00 PM - 3:15 PM
- Alaska Science Catalog & The Southeast Alaska GIS Library: Working To Meet Your Geospatial Needs!
  Kahtnu 1
- Arctic Air Quality Workshop
  Kahtnu 2
- Beginning A Conversation About Climate Change: A Report Out On Community Outreach
  Tikhahtnu E
- Disposal Options For Construction And Demolition Waste In Rural Alaska
  Tubughnenq 5
- Hazard Mitigation And Rural Community Resilience
  Tubughnenq 3
- Methyl Mercury In Subsistence Pike And Burbot In Western Alaska
  Tubughnenq 4
- Successful Tribal Environmental Demonstration Projects Under The Indian General Assistance Program
  Tikhahtnu D

2:00 PM - 4:45 PM
- Statement Of Cooperation - Executives & Elders Talking Circle
  Tikhahtnu C

3:30 PM - 4:45 PM
- A Meaningful Role? Understanding A Key Phrase In The National Interest Lands Conservation Act
  Kahtnu 1
- Bringing Science Home To Your Community
  Kahtnu 2
- Internet-Connected Sensors And Thermal Infrared Technology For Environmental Data Collection
  Tubughnenq 3
- Overview Of The Northwest Arctic Borough Subsistence Mapping Project
  Tubughnenq 4

- Valuing Ecosystem Services In The Mat-Su Borough
  Tikhahtnu E
**Friday, February 7**

### MORNING
8:00 AM - 4:45 PM
- 8-Hour Rural Alaska Landfill Administrator (RALA)  
  Training for Village Administrators  
  Tubughneng 3
- Healthy Home Activities Across Alaska: Local Perspectives  
  On What Works  
  Tubughneng 5

8:00 AM - 5:00 PM
- HAZWOPER  
  Tikahtnu E

8:00 AM - 11:45 AM
- Why Geotourism?  
  Tubughneng 4

8:30 AM - 12:30 PM
- Oil Spill Recovery Institute Advisory Board Annual Meeting  
  K'enaqatnu Boardroom

9:00 AM - 11:00 AM
- Community Based Monitoring: Furthering The Discussion On Best Practices For Alaska  
  Kahtnu 1

9:00 AM - 11:45 AM
- Film Festival  
  Tikahtnu D

9:00 AM - 4:30 PM
- Overview Of The Mining Industry: Property Rights, Environment, Economics And Issues  
  Kahtnu 2

### AFTERNOON
1:00 PM - 2:30 PM
- Indian General Assistance Program Closing Session  
  Tikahtnu C

### NOTES:

---

*Alaska Forum on the Environment Registration Services and all Keynote Events will be located at the Dena'ina Convention Center, TIKHAHTNU (COOK INLET) BALLROOM, 3rd Floor*
NOTES:

A. Anchorage Marriott Downtown
820 W. 7th Ave Anchorage, AK 99501

B. Dena'ina Convention Center
600 W. Seventh Ave Anchorage, AK 99510
2014 Alaska Forum on the Environment

Detailed Agenda

NOTES:

Alaska Forum on the Environment Registration Services and all Keynote Events will be located at the Dena'ina Convention Center, TIKAHTNU (COOK INLET) BALLROOM, 3rd Floor
7:30 AM - 9:00 AM
Registration
Tikahtnu A&B
Registration for Alaska Forum on the Environment Sessions and Keynote Events.

8:00 AM - 9:00 AM
MORNING MUSIC EVENT
Tikahtnu A&B
Michael Gorder On Acoustic
Grab your morning coffee and listen to the acoustic music of local talent Michael Gorder.

9:00 AM - 10:15 AM
OPENING KEYNOTE EVENT
Tikahtnu A&B
Ron Black, Entrepreneur
Harvesting the Wisdom of Community: Make the most of your attendance at the 2014 Alaska Forum on the Environment by starting your week with keynote speaker Ron Black. “Our community is our strength,” Ron says. “In today’s interconnected world, communities are essential as individuals unite in respectful, cooperative approaches to the issues and initiatives affecting us all.” Ron will help us understand what each of us can do this week to share, to listen, and to build relationships that will enable us to harvest the wisdom of all our Alaskan Forum community members both today and into the future. About Ron Black: “All of my ideas… at least the really good ones… have come from people I’ve had the good fortune to meet!” From running a small construction company on the Wind River Reservation in Wyoming to a worldwide speaking career, the common denominator in his diverse career has been the ability to listen, to learn, and to share good ideas. Ron is the founder of several businesses, a four-time turnaround consultant, former Fortune 500 executive, and author of two books published by Penguin Putnam and MacMillan Press. He provides keynote programs and has worked with many diverse groups throughout the US and Canada, and in Australia, Russia, Colombia and Brazil, including the Associated General Contractors of Alaska, US Fish & Wildlife Service, Jicarilla Apache Nation, Tooh Dineh Industries, and the US Environmental Protection Agency.

10:30 AM - 11:45 AM
About LEO – The Local Environmental Observer Network - 2014 Update
Tubughnenq 5
This session provides an overview about the Local Environmental Observer (LEO) Network, what it is, how it works and update from the observations posted from LEO Network members in Alaska and Canada from 2013. It is a great session for anyone interested in LEO, environmental change impacts and community based monitoring programs in the north.
Presenter: Michael Brubaker, Alaska Native Tribal Health Consortium
Moderator: JR Herbst, US Environmental Protection Agency

Communicating Effectively: Oil And A Changing Arctic
Kahtnu 1
When an oil spill occurs, are you prepared to talk to the public about the complex and thoughtful processes that went into preparing for exploration, extraction and potential hazards? Our online module trains informal science educators to discuss oil use, risks and spill remediation - especially as they relate to the increasingly accessible Arctic region.
Presenters: Laurie Morrow and Jeff Dillon, Alaska SeaLife Center
Moderator: Paul Gill, US Coast Guard

Elements Of A Modern Hard-Rock Mine
Kahtnu 2
The course uses a visual tour of an open-pit and an underground gold mine to explain the elements of a modern hard-rock mine. The session will highlight the major environmental issues, particularly water handling and water quality, facing mining in Alaska. Participants should come out of the session with an understanding of the function of major mine facilities; the process by which ore becomes metal and tailings; typical processes for using water and controlling water quality; and important environmental issues particularly water quality.
Presenter: Bob Loeffler, University of Alaska
Moderator: Cindi Godsey, US Environmental Protection Agency

Marine Debris Outreach
Tubughnenq 3
This session will present on various outreach and education efforts focusing on marine debris in the state of Alaska.
Presenters: Beth Trowbridge, Center for Alaska Coastal Studies; Karen Larsen, Artist; Sue Goodglick, Alaska Department of Fish and Game; Julie Decker, Anchorage Museum
Moderator: Erika Ammann, National Oceanic and Atmospheric Administration
Ocean Science On The Outer Continental Shelf
K’enakatnu Boardroom
There is a treasure trove of science and analysis available on the web; so great a treasure that people can be intimidated by the search for information. This session will focus on finding existing environmental science on the web with a tour of various public websites and pages that communicate ocean science. Presenter Bill Swears will walk participants through the maze of links and menus to reach publicly available reports, environmental analyses and research papers concerning ocean science analyses on the offshore continental shelf.
Presenter: William Swears, Bureau of Ocean Energy Management

Science Of Climate Change: Why We Are Seeing
What We Are Seeing
Tikahtnu E
The author takes an ecological approach to explain climate change by looking at the basic processes of the earth and following the flow of energy in the human and natural world from 500 million years ago to the present. Utilizing this information, what is happening with our climate and the likely future becomes clear. The goal of the presentation is for the audience to be better educated on the fundamental causes of climate change and why solutions are elusive.
Presenter: Jerome Montague, Alaskan Command Command
Moderator: Nancy Fresco, University of Alaska

Using Novel Autonomous Technology To Study And
Monitor The Arctic Environment From
Millimeter-Scale
Tikahtnu C
Here we present recent advances in studying and monitoring the Arctic environment using novel and autonomous technology including adaptive sampling using real-time satellite-relayed data. Examples from Arctic fieldwork are presented, including real-time detection and identification of marine mammals using autonomous vehicles and adaptive high-resolution environmental sampling using drifters, radars and towed vehicles.
Presenter: Peter Winsor, University of Alaska Fairbanks
Moderator: Sam Widmer, ConocoPhillips Alaska Inc.

Using A Generic UFP-QAPP At A Large Complex
Contaminated Site - The Galena Airport
Tikahtnu D
A panel of regulators, U.S. Air Force managers and consultants will share their experiences applying the “Uniform Federal Policy for Quality Assurance Project Plans” (UFP-QAPP) to a large and complex site at Galena Airport. When EPA and other federal agencies developed guidance and training programs for this new workplan tool, the “Generic QAPP” was seen as a potentially valuable concept. The project team at Galena was one of the first to embrace that concept in Alaska, and the team members learned through trial and error as they developed this complex workplan. Developed for the Air Force in 2010, the Generic QAPP for Galena has had only three major revisions and has been successfully used through four field seasons on 60+ sites or “Areas of Concern.” Three prime contractors and numerous subcontractors have used the same workplan, submitting only limited contractor-specific supplements for approval. Field workplan requirements for each area of concern have been reduced to separate “field sampling plans” that become appendices to the Generic QAPP. Risk Assessment workplans are also appendices to the master document. Development of the Generic QAPP has saved time and money at Galena by agreeing up front on typical project objectives and using common workplans and procedures for multiple areas of concern.
Presenters: Fred Vreeman and Dennis Shepard, Alaska Department of Environmental Conservation; Win Westervelt, CH2M HILL; Bruce Henry, Parsons; Brent Jones, Tetra Tech
Moderator: Todd Blessing, Alaska Department of Environmental Conservation

Youth And Adult Environmental Project Showcase
(Part 1 of 2)
Tubughnenq 4
This session will highlight the following exemplary youth and adult environmental project partnerships from around the state: The Kaltag Virtual Museum, the Copper River Watershed project, The Innoko River School GLOBE Burn site, and the M.C.D.T website to showcase original songs and teen creative environmental expressions. The session will provide ideas for partners and funding sources, and explore successes, challenges and lessons learned.
Presenters: Deshaun McGinty, Kaltag; Gabrielle Brown, Cordova; McKenzy Sage Haber, Homer
Moderator: Laurel Devaney, US Fish & Wildlife Service
February 3

12:00 PM - 1:45 PM

NOON KEYNOTE EVENT
Ballroom A&B

Special Guest
Senator Mark Begich,
US Senate

Senator Mark Begich, serving in his fifth year representing Alaska in the US Senate, will provide welcoming remarks prior to the keynote presentation. Senator Begich serves on the Veterans Affairs, Homeland Security, and Commerce Committees. He serves as chairman of the Commerce Committee’s Subcommittee on Oceans, Atmosphere, Fisheries and Coast Guard and as chairman of the Subcommittee on Emergency Management and Intergovernmental Affairs.

Chad Pregracke,
Living Lands And Waters

Chad Pregracke is a modern-day leader and proof that one person can make a difference. What started as one man’s crusade to clean up the Mississippi River has evolved into a cultural movement that has resulted in over 7 million pounds of garbage being cleaned out of America’s rivers. The vision and leadership skill that Chad possesses has inspired more than 70,000 people to volunteer their time and resources. This keynote event will provide a journey to discover a world filled with lively characters, colorful places, and gripping adventures as part of Chad’s quest to clean America’s major rivers. From the darkness of underwater shell diving, to the brightness of a river clean up involving hundreds of volunteers from a local community, Chad’s tale embodies the importance of setting lofty goals, staying determined when the going gets tough, and creating a solid team dynamic even in the most difficult of environments. Chad’s sincere enthusiasm creates an uplifting wave for audiences of all ages as he relates his personal convictions and struggles regarding cleaning up America’s rivers.

2:00 PM - 3:15 PM

Abiotic, Biotic And Biogeochemical Treatment Of Chlorinated Organics
K'enakatnu Boardroom

This presentation will provide a discussion of abiotic, biotic and biochemical processes for treating chlorinated organics in soil and groundwater and will present methods and results of bench and field studies.

Presenter: Daniel Leigh, FMC Corporation
Moderator: Win Westervelt, CH2M HILL

How Landfill Paperwork Is Useful For More Than Origami!
Kahtnu 1

Think paperwork is useless? Especially landfill paperwork? It’s not! Monthly Landfill Inspection forms can be used to track problems and repairs at the landfill. Your inspection report lays out at least three ideas to improve your landfill and therefore your community’s environment. Come find out what other uses landfill paperwork can have to your community. Who knows - maybe we’ll make some origami too?

Presenters: Rebecca Colvin and Kym Bronson, Alaska Department of Environmental Conservation
Moderator: Trisha Bower, Alaska Department of Environmental Conservation

Learning The Basics And Getting Started: A Session For New Indian General Assistance Program Staff (Part 1 of 2)
Tikahtnu C

Often getting started is the hardest part for new Indian General Assistance Program (IGAP) Staff. This session is designed to “check in” with new IGAP staff on the important requirements, and answer questions. New staff should be prepared to discuss your IGAP projects and participate in an activity during Part 2.

Presenters: JR Herbst, Cathy Villa, Mahri Lowinger, and Tom Fordham, US Environmental Protection Agency
Moderator: Santina Gay, US Environmental Protection Agency

Living Lands & Waters –Inspiring Others To Take Action...One Piece Of Garbage At A Time!
Tikahtnu D

What began 16 years ago with one young man and a big vision to clean the Mississippi River, has grown into the only “industrial strength” river cleanup organization like it in the world. Learn more about Living Lands & Waters--its programs and operations...and successes and failures. Beyond cleanups, Living Lands & Waters has also expanded into planting trees and hosting educational workshops aboard their floating classroom on the barge the crew lives on. Get ideas on how to start your own cleanups, tree planting and educational projects, gain sponsors, and recruit and motivate volunteers...and keep them coming back for more!

Presenter: Tammy Becker, Living Lands & Waters
Moderator: Doug Huntman, Alaska Department of Environmental Conservation
Marine Debris General Topics (Part 1 of 2)  
**Tubughnenq 3**  
This two-part session will have presentations on general topics of marine debris for the state of Alaska. Topics will include local origin of debris, invasive species, statewide prioritization for cleanup and research efforts.  
Presenters: Cheri Northem, Anchorage Waterways Council; Margot O’Connell, Sitka Sound Science Center; Jana Stewart, Alaska Department of Environmental Conservation  
Moderator: Tom Pogson, Island and Trails Network  

**Relationship-Scale Conservation**  
**Kahtnu 2**  
This presentation explains how to implement conservation at a relationship scale. The objectives are to (1) discuss challenges and threats to conservation at protected areas, (2) outline an approach to address these threats, (3) describe tools to implement relationship-scale conservation, and (4) present an example from rural Alaska to illustrate the innovative approach.  
Presenters: Susan Miller, Jimmy Fox, and Jeffrey J. Brooks, US Fish & Wildlife Service; Robert G. Dvorak, Central Michigan University  
Moderator: Crystal Leonetti, US Fish & Wildlife Service  

**The Power Of A Flower: Developing Community Monitoring Programs To Understand Invasive Plant Impacts**  
**Tubughnenq 4**  
Alaska has a wealth of berries and they are an important part of the subsistence diet. However, new types of weeds may be luring pollinators like bees away from our berry plants. This session will introduce a community monitoring program you can be part of to learn more about this issue.  
Presenter: Katie Villano Spellman, University of Alaska Fairbanks  
Moderator: Peter Stortz, UAF Cooperative Extension Service -Retired  

**Two Climate Change Case Studies: Increased Water Temperature And Impacts To Yellow Cedar**  
**Tikahtnu E**  
In the first case study presented, The Western Alaska Landscape Conservation Cooperative and Alaska Climate Science Center are directing a comprehensive effort to conduct regional freshwater climate change analyses. Partnering with the Alaska Natural Heritage Program, the project team is now consolidating stream and lake temperature monitoring sites into the Alaska Online Aquatic Temperature Site (AKOATS). The second presentation will discuss how much of the research on yellow-cedar decline in Southeast Alaska has focused on how reduced snowpack associated with climate change makes these trees vulnerable to sudden freeze-thaw events. As forest mortality events can have cascading effects on ecosystem function, biological diversity, and other ecosystem services, we study overstory and understory dynamics in forests affected by the decline.  
Presenters: Marcus Geist, Alaska Natural Heritage Program; Lauren Oakes, Stanford University  
Moderator: Nancy Fresco, University of Alaska  

**Wood Heat For Rural Alaska Homes: Your Choices Determine Heating Efficiency, Health & Safety**  
**Tubughnenq 5**  
Wood heat provides safe, sustainable heat for many rural homes. The decisions wood burners make preparing wood fuel for burning, purchasing the right stove, proper installation, operation and maintenance of the stove and venting are critical steps. This presentation describes concerns of improper wood heating that lead to air quality, human health and safety issues in many communities. Modern wood heating requires a systems approach to avoid unsafe and costly consequences.  
Presenter: Robert Gorman, UAF Cooperative Extension Service  
Moderator: Devany Plentovich, Alaska Energy Authority
Activation Methods For Persulfate Used For In-Situ Chemical Oxidation (ISCO)
K’enakatnu Boardroom
This presentation will discuss the main activation methods for properly activating persulfate and achieving success in the field when using persulfate for ISCO. Discussion will include the pros and cons, safety, dosing information, costs and case studies of four main activation methods.
Presenter: Stacey Telesz, FMC Corporation
Moderator: Win Westervelt, CH2M HILL

Clean Energy Policy
Kahtnu 1
Renewable energy and energy efficiency have long been lauded as best steps forward for energy security, economic growth and environmental health, but how do we get there? Chris Rose, executive director of Renewable Energy Alaska Project, has been instrumental in the passage of legislation promoting greater adoption of renewal energy and energy efficiency in Alaska. He will present on next best steps for clean energy policy in Alaska, drawing on examples from around the country and relevant research done here in Alaska.
Presenter: Chris Rose, Renewable Energy Alaska Project
Moderator: Gene Therriault, US Environmental Protection Agency

Going Geospatial: Adventures In Mapping For Community Programs
Tubughnenq 4
Are you looking for a fun and easy way to incorporate the latest technology into your community environmental program? You can use GIS technology to collaborate on maps, display data, and tell your stories with photos and text. An ArcGIS Online for Organizations account can give your group the ability to do all this and more. Not only is this mapping software powerful, it is also engaging, user-friendly and, thanks to a statewide educational license, free to youth organizations.
Presenter: Katie Kennedy, University of Alaska Fairbanks
Moderator: Peter Stortz, UAF Cooperative Extension Service -Retired

Learning The Basics And Getting Started: A Session For New Indian General Assistance Program Staff (Part 2 of 2)
Tikahtnu C
Often getting started is the hardest part for new Indian General Assistance Program (IGAP) Staff. This session is designed to “check in” with new IGAP staff on the important requirements and to answer questions. New staff should be prepared to discuss your IGAP projects and participate in an activity during Part 2.
Presenters: JR Herbst, Cathy Villa, and Tami Fordham, US Environmental Protection Agency
Moderator: Santina Gay, US Environmental Protection Agency

Marine Debris General Topics (Part 2 of 2)
Tubughnenq 3
This session will have presentations on general topics of marine debris for the state of Alaska. Topics will include local origin of debris, invasive species, statewide prioritization for cleanup and research efforts.
Presenters: Erika Ammann, National Oceanic and Atmospheric Administration; Peter Murphy, National Ocean Service; Ben Pister, National Park Service; Veronica Padula, University of Alaska Anchorage
Moderator: Tim Veenstra, Airborne Technologies

Marine Mammal Consumption In Alaska: Contaminants, Benefits And Risks
Tikahtnu D
Many in Alaska, particularly those living in native communities, consume varying amounts of marine mammals, such as whale, walrus and seal. All marine mammals have a certain body load of various contaminants depending on several parameters that include species, habitat, age, hierarchy in the food chain, etc. Risk management strategies may be warranted to advise the public on safe dietary choices. This session aims to share what we know about levels of contaminants in marine mammals caught in Alaska, to discuss possible sources of these contaminants and how they potentially bioaccumulate and biomagnify in these animals, and to set the stage for developing a framework to estimate the potential risks and benefits associated with harvesting and consuming them.
Presenters: Ali Hamade, Alaska Department of Health and Social Services; Marty Brewer, Alaska Department of Environmental Conservation; Lori Quakenbush, Alaska Department of Fish and Game; Jim Berner, Alaska Native Tribal Health Consortium
Moderator: Barbara Schrader, US Forest Service
Red Devil Mine: A 2014 Action To Prevent Historic Tailings From Migrating To The Kuskokwim River Kahtnu 2
The Bureau of Land Management is planning a 2014 action at the abandoned Red Devil Mine site to prevent tailings with high concentrations of mercury, arsenic and antimony from migrating to the Kuskokwim River. The action will focus on Red Devil Creek and tailings piles near the creek. It’s a first step in a larger effort to address environmental risk due to the tailings. The BLM is finalizing an investigation of the mine and is evaluating several alternatives for remediating the site.
Presenter: Mike McCrum, US Bureau of Land Management
Moderator: Ty Keltner, Alaska Department of Environmental Conservation

Solid Waste Problem Solving From The Ground Up - Panel Discussion
Tubughnenq 5
Hear how organizations that tackle solid waste concerns across Alaska and the Lower 48 began and pick their brains on how to develop or enhance your community’s solid waste efforts.
Presenters: Chad Pregracke, Living Lands & Waters; Stephen Price and John Waterhouse, Yukon River Inter-Tribal Watershed Council; Anahma Shannon, Kawerak Inc.
Moderator: Ted Jacobson, US Environmental Protection Agency
February 4

MORNING KEYNOTE EVENT
Tikahtnu A&B

Dennis McLerran,
Administrator, EPA Region 10

A popular and involved participant in the Alaska Forum on the Environment, we are proud to announce that Dennis McLerran will return for our 15th year AFE event! Dennis McLerran was sworn in on February 22, 2010 by President Barack Obama to serve as the Regional Administrator (RA) for Region 10, leading a staff of 650 employees with responsibility for an annual budget of $500 million. As RA, Dennis oversees the implementation and enforcement of the federal environmental rules and regulations in the states of Washington, Oregon, Idaho and Alaska, including 271 Tribal Governments. Before moving to EPA he served as Executive Director of the Puget Sound Clean Air Agency, a state chartered regional agency that adopts and enforces air quality standards where he led the development of an innovative strategy to reduce emissions at the ports of Seattle, Tacoma and Metro Vancouver.

9:00 AM - 10:15 AM
Assessing Risk Perception And Community Disaster Resilience
Kahtnu 1

The session consists of two presentations. The first presentation will discuss risk perception as a complex dynamic system and as a means for community-based scenario development as a risk-communication tool for capturing assumptions and emergent attitudes under changing conditions. The risk priorities of various North Slope stakeholders and organizations in charge of local and regional governance provide examples of the approach. The second presentation discusses 1) the major challenges to local communities and governments from extreme weather events, globalization, and liability; 2) how building disaster resilience and adaptive capacity can build stronger, more resilient communities while reducing damage from disasters, and 3) methods for building community disaster resilience.

Presenter: Berill Blair, University of Alaska Fairbanks
Moderator: John Duffy, University of Alaska Fairbanks

Environmental Cleanup Response To The 2013 Galena Flood
Tikahtnu D

An ice jam developed on the Yukon River during spring melting in May 2013, flooding the City of Galena, Alaska. As part of the State of Alaska’s response to the Governor’s disaster declaration, the Alaska Department of Environmental Conservation’s (DEC) Prevention and Emergency Response Program (PERP) was activated to address the hazardous debris and contaminated soil on publicly owned lands. More than 4,100 containers of oil and hazardous substances were removed from the community with DEC oversight. This talk will discuss the scope of the work PERP conducted as well as discuss lessons learned that will be applied to future flooding events.

Presenter: Ashley Adamczak, Alaska Department of Environmental Conservation
Moderators: Ty Keltner, Alaska Department of Environmental Conservation

EPA Tribal Coordinators: Regional Roundtable
Indian General Assistance Program Discussion
Tikahtnu C

EPA Tribal Coordinators will meet with Indian General Assistance Program (IGAP) grant recipients in this small group format to discuss important program updates, new requirements; and to engage with IGAP staff on issues important to your environmental program.

Presenters: Tami Fordham, Michelle Davis, Mahri Lowinger, Cathy Villa, JR Herbst, Adrienne Fleek and Sherry Kimmons, US Environmental Protection Agency
Moderator: Santina Gay, US Environmental Protection Agency
**High School Science Programs For Rural Students**

*Tubughnenq 4*

Learn about some great statewide science programs available to rural high school students. Presentations will include information about: Envirothon, National Ocean Science Bowl and the Marine Science Symposium.

**Moderators:** Te'Audra Sanders, Palmer Soil and Water Conservation District; Phyllis Shoemaker, University of Alaska Fairbanks; Marilyn Sigman, Alaska Sea Grant

**Presenters:** Mark Masteller, University of Alaska Anchorage; Robin Gilcrist, University of Alaska Southeast; Jessie Huff, Renewable Energy Systems; Michael Golub, University of Alaska Fairbanks

**Moderator:** Laurel Devaney, US Fish & Wildlife Service

---

**Invasive Species In Rural Alaska (Part 1 of 2)**

*Kenakatnu Boardroom*

Invasive species are a growing threat to subsistence and agricultural resources in Alaska. Recently new discoveries of invasive species and impacts to subsistence and agricultural resources highlight the importance of preventing introduction and widespread establishment of invasive species. Part 1 of this two-part session will focus on impacts of invasive species to subsistence and agricultural resources. Specifically, we will discuss white sweetclover and impacts to berry production, Elodea impacts to a popular Fairbanks grayling fishery, and invasive chokecherry impacts to native trees and shrubs consumed by moose.

**Presenters:** Katie Villano Spellman, University of Alaska Fairbanks; Gino Graziano and Darcy Etcheverry, UAF Cooperative Extension Service

**Moderator:** Barbara Schrader, US Forest Service

---

**Statewide Marine Debris Removal Efforts (Part 1 of 2)**

*Tubughnenq 3*

In this two-part session presenters from across the state will report on their local cleanup efforts. Differences and similarities of marine debris cleanups will be examined as well as monitoring and data collection.

**Presenters:** Dave Gaudett, Alaska Marine Stewardship Foundation; Michael Williams, National Oceanic and Atmospheric Administration; Tazay Jones, National Park Service

**Moderator:** Peter Murphy, National Ocean Service

---

**What Do Alaskans Need? A Review Of Documents Addressing Research Needs Related To Climate Change**

*Tikahtnu E*

Communities, agencies and other entities have begun to grapple with both the information that they need to adapt to a changing climate and how the processes and practices of science should change to make science more useful. We reviewed and coded sixty-three documents that expressed practical research needs related to climate change in Alaska to document stakeholder-defined research needs, assess whether there are spatial or topic-related gaps in needs assessment, and understand what stakeholders suggest about how science might be more relevant and useful in a changing climate.

**Presenter:** Corrine Knapp, University of Alaska

**Moderator:** Nancy Fresco, University of Alaska
Ecosystem Assessments And Major Policy Failures

**Kahtnu 1**

The session consists of two presentations. The first presentation discusses environmental changes at multiple scales to determine whether the harm to ecosystems can be reduced through modification of human behavior and application of sustainable technologies. As change increases in the Yukon Watershed, both environmental management and healthcare policy should support the enhancement of regional adaptive capacity and resilience. A new integrated framework for environmental security assessment using the Yukon River Watershed in Alaska is presented. The second presentation reviews major policy failures in Alaska including: Kyoto agreement, Convention of Biological Diversity, Endangered Species Act, Intensive Management Law, selected fisheries policies of the Magnuson-Stevens Act, Law of the Sea, as well as education, clean air, mining and water quality policies. The comparison helps understanding of methods for improving Alaska’s economic-environmental-sociological system. 

Presenter: Gillian Mittelstaedt, Tribal Healthy Homes Northwest
Moderator: John Duffy, University of Alaska Fairbanks

**How Will Climate Change Affect Cultural Resources And Historic Properties?**

**Tikahtnu E**

Learn about potential impacts such as increased erosion and thermokarsting on archaeological sites, weathering of historic roofs, increased rates of deterioration of artifacts and other impacts you may want to consider as you’re working on cultural and historic sites throughout the state. National Park Service staff will provide short presentations and then open the session to discussion and Q&A.

Presenters: Dael Davenport, Rachel Mason, and Jeremy Karchut, National Park Service
Moderator: Jean Gamache, National Park Service

**Ensuring Field And Lab Competency Under Indian General Assistance Program Baseline Monitoring Projects**

**Tikahtnu C**

Compliance with the Forum on Environmental Measurement (FEM) Policy for ensuring field and laboratory competency is now required by the Office of Grants and Debarment for EPA-funded agreements expected to exceed a total maximum value of $200,000 (in federal funding) that will involve the generation or use of environmental data. The FEM Policy went into effect on October 1, 2013 for all qualifying grants from that date forward. This will affect many of our Alaska Indian General Assistance Program grants and tribal baseline monitoring efforts.

Presenter: Gina Grepo-Grove, US Environmental Protection Agency
Moderators: JR Herbst and Mary Goolie, US Environmental Protection Agency

**Invasive Species In Rural Alaska (Part 2 of 2)**

**K’enakatu Boardroom**

Invasive species are increasingly found in rural parts of Alaska where they may impact subsistence and agricultural resources. Invasive species prevention, monitoring and management are becoming a common priority for communities in rural Alaska. This session will cover a general approach to getting started with invasive species management, resources available to new invasive species managers, and stories of rural Alaska efforts. We will finish with a work session where participants will walk away with a plan for action.

Presenters: Gino Graziano, UAF Cooperative Extension Service; Darcy Etcheverry, UAF Cooperative Extension Service; Pat Samson, Kuskokwim River Watershed Council; Genelle Winter, Metlakatla Indian Community; Brian Maupin, Alaska Association of Conservation Districts
Moderator: Barbara Schrader, US Forest Service

**Statewide Marine Debris Removal Efforts (Part 2 of 2)**

**Tubughnenq 3**

In this two-part session, presenters from across the state will report on their local cleanup efforts. Differences and similarities of marine debris cleanups will be examined as well as monitoring and data collection.

Presenters: Tom Pogson, Island and Trails Network; Colleen Rankin, Afognak Island; Pamela Lestenko, Aleut Community of St. Paul
Moderator: Tim Veenstra, Airborne Technologies

**How To Talk To Your Community About Wood Smoke Risks And Mitigation Strategies**

**Tubughnenq 5**

Six panelists will illustrate how wood smoke toxins enter the body, how they affect the body and how to promote wood burning practices that reduce smoke and toxins in wood smoke.

Presenter: Gillian Mittelstaedt, Tribal Healthy Homes Northwest
Moderator: Klaudia Jo Klaudi, Knik Tribe

**Hydraulic Fracturing Basics**

**Kahtnu 2**

ConocoPhillips will discuss the basics of hydraulic fracturing. The presentation will focus on well design, the mechanics of fracturing rock and the basic equipment and fluids involved. The presentation will also cover some of the more common myths related to hydraulic fracturing and will discuss what is fact and what is fiction.

Presenter: Robert Blakney, ConocoPhillips Alaska Inc.
Moderator: Sam Widmer, ConocoPhillips Alaska Inc.

**How Will Climate Change Affect Cultural Resources And Historic Properties?**

**Tikahtnu E**

The Pebble Project: Schedule, Social Impacts And Mining Issues
Tikahtnu D
This session will describe the status of the Pebble Project, and give some information about the potential social impacts for the Bristol Bay Region along with some discussion of mining issues.
Presenter: John Shively, Pebble Partnership
Moderator: Doug Mutter, Alaska Forum

Youth And Adult Environmental Project Showcase
(Part 2 of 2)
Tubughnenq 4
This session will highlight the following exemplary youth and adult environmental project partnerships from around the state: Climate Change Education at Worthington Glacier, the Koyuk Youth Energy Project, the Black River Baseline Data Collection Project, and the Wrangell Boy Scouts Marine and Wilderness Stewardship Project. The session will provide ideas for partners and funding sources, and explore successes, challenges and lessons learned.
Presenters: Allyson Fisher-Salmon, Alisha Horace, Shani Fisher-Salmon, Julia Fisher-Salmon and Brianna Fisher-Salmon, Chalkykitsik; Ashley Hoogendorn, Kenny Lake, and Samantha Ellsworth, Koyuk; Curtis Wimberly, Tymon Teat, Jonah Comstock, and Kellan Eagle, Wrangell
Moderator: Laurel Devaney, US Fish & Wildlife Service

2:00 PM - 3:15 PM

Adapting To Climate Change In The Kuskokwim River Watershed
Tikahtnu E
Climate change is already having substantial impacts on the Kuskokwim River Watershed, as evidenced by Traditional Ecological Knowledge and monitoring data; climate models indicate that changes will continue to accelerate in the future. The Geos Institute and Kuskokwim River Watershed Council are working together to explore TEK and climate science, and develop adaptation strategies that increase resilience for people and natural systems.
Moderators: Nancy Fresco, University of Alaska; Marni Koopman, Geos Institute

Commercial Building Energy Efficiency As A Catalyst For Sustainability
Kahtnu 1
Improving the energy efficiency of commercial buildings is a way to fast track greenhouse gas emissions reductions and encourage vibrant, sustainable communities. In this panel experts will discuss energy efficiency potential in the commercial building sector, state programs on the ground currently to help facilitate EE improvements, and a success story of realized savings.
Presenters: Chris Rose, Renewable Energy Alaska Project; Don Bantz, Alaska Pacific University
Moderator: Cady Lister, Alaska Energy Authority

Creating Sustainable Communities
Kahtnu 2
This session will have 2 presentations: In Presentation 1, Alaska Trails highlights trails successes across Alaska and what these important trails can bring to Alaska’s communities, both big and small. Alaska Trails work with partners across the state on a variety of trails is presented as well as a discussion of available resources that communities can tap into for local trail projects. Presentation 2 discusses key elements of nature-based tourism in Southeast Alaska, providing the region’s $250 million in direct revenue and 20% of jobs are discussed. Effects of climate change are assessed from a mixed methods study of how nature-based tourism operators in Juneau, Alaska, perceive and respond to climate change.
Presenters: Kristin Timm, University of Alaska Fairbanks; Steve Cleary, Alaska Trails
Moderator: John Duffy, University of Alaska Fairbanks
2:00 PM - 3:15 PM cont.

**Erosion Responses And Resources**

*Tikahtnu D*

Erosion is seen throughout the State of Alaska. This session will feature presenters on potential new erosion responses and a State of Alaska project to assess and provide useful information to affected communities.

Presenter: Ruth A. Carter and Harvey Smith, State of Alaska DOT; Nicole Kinsman, State of Alaska Department of Natural Resources

Moderators: Michelle Davis and JR Herbst, US Environmental Protection Agency

**National Park Service In Alaska: What Is It And Why Is Their Work Important To You?**

*Tubughnenq 5*

The National Park Service manages more than 54 million acres of public lands in Alaska, and as part of that management process, hires more than 500 people for seasonal jobs (many are brought in through the Local Hire authority), creates opportunities for small businesses and oversees subsistence harvest as part of the Federal Subsistence Board process. These are some of the topics that participants can discuss with experts during this session.

Moderators: Jean Gamache and John Quinley, National Park Service

**Susitna-Watana Hydro Project: Panel Discussion**

*K'enakatnu Boardroom*

The State of Alaska is in the early stages of design and permitting of a large hydro-power project on the Susitna River. The proposed project site is 87 miles upriver from Talkeetna. It includes a 735’ high dam, with a 24,000 acre reservoir behind it. This project is intended to meet 50% of Railbelt electrical demand, especially during critical winter months. The panel will be made up of the State’s project manager and a variety of other interested stakeholders. The moderator will begin discussion with prepared questions and end with an opportunity for questions from the audience.

Presenter: Wayne Dyok, Alaska Energy Authority

Moderator: Doug Mutter, Alaska Forum

**Tribal Water Quality Projects**

*Tikahtnu C*

This session highlights baseline water quality collection efforts across Alaska and shares valuable information about these projects so that other Tribes looking to develop similar programs can benefit. Key requirements and resources will also be available.

Presenters: Gina Grepo-Grove, US Environmental Protection Agency; Kate Schaberg, Georgetown Tribal Council; Ryan Toohey, Yukon River Inter-Tribal Watershed Association

Moderator: Santina Gay, US Environmental Protection Agency

**Tsunami Marine Debris Updates**

*Tubughnenq 3*

Updates on various Tsunami marine debris efforts across the state.

Presenters: Tom Pogson, Island and Trails Network; Peter Murphy, National Ocean Service; Dave Gaudett, Alaska Marine Stewardship Foundation; Chris Pallister, Gulf of Alaska Keeper; Tim Veenstra, Airborne Technologies

Moderator: Erika Ammann, National Oceanic and Atmospheric Administration

**Wildlife Tracking And Trail Cameras!**

*Tubughnenq 4*

The Alaska Department of Fish and Game now has trail cameras available for loan to educators throughout Alaska. The trail cameras take photos of local wildlife day and night using motion-detection and infra-red technology. Learn how these cameras can be used to spark curiosity and observations about the natural world and to teach youth about local habitats, wildlife and animal adaptations.

Presenters: Elizabeth Manning and Brenda Duty, Alaska Department of Fish and Game

Moderator: Peter Stortz, Alaska UAF Cooperative Extension Service -Retired

**NOTES:**
Arctic Ecosystem Integrated Survey: A Marine Survey Of The Northern Bering & Chukchi Seas
Tubughnenq 3
The Arctic Ecosystem Integrated Survey (EIS) Project is a 2-year comprehensive field study of the water masses, circulation and biological resources of the northeastern Bering Sea and Chukchi Sea marine ecosystems. Our baseline data collection and analysis helps define the regional structure, function and ecology of the plankton, fish and shellfish communities under current climate and habitat conditions. Three scientific cruises and 164 sea days were used to collect data and samples on the oceanography, small plankton, pelagic and demersal fish, and benthic invertebrates. The session will focus on the findings of our efforts.
Presenter: Jared Weems, University of Alaska Fairbanks
Moderator: Sylvia Kreeel, Alaska Department of Natural Resources

Assessing Wetland Functions & Services For National Resource Conservation Service
Kahtnu 1
The Alaska Food Security Act Wetland Analysis (AFWA) was developed for conducting minimal effects determinations and assess wetland functions and services for National Resource Conservation Service (NRCS) programs. AFWA is a simple, efficient process that can be used by NRCS to assess wetlands specifically for NRCS programs in Alaska.
Presenter: Michelle Schuman, US Department of Agriculture
Moderator: Barbara Schrader, US Forest Service

Fukushima Radiation- Putting Things Into Perspective
Tikahtnu E
Does the Fukushima Nuclear Power disaster put Alaskans at risk of radiation exposure? Join us for this panel discussion to address what happened at Fukushima, the timing and amounts of radiation released and the risk it poses to Alaska and Alaskans.
Presenters: Clyde Pearce and Ali Hamade, Alaska Department of Health and Social Services; Marty Brewer, Alaska Department of Environmental Conservation
Moderator: David Lockard, Alaska Energy Authority

Integrating Traditional Knowledge, Faith And Science For A Thriving Environment And Community
Tikahtnu C
A talking circle of six Alaskan leaders will discuss integrating traditional knowledge, faith and science as a way of empowering communities to initiate sustainable actions to ameliorate the impacts of climate change through discourse, dialogue and collaboration.
Presenters: Douglas Causey, University of Alaska Anchorage; Elaine Abraham, Ataur Chowdhury, Curtis Karns, Ilarion Merculief, Thomas Weise
Moderator: Mary Walker, One People, One Earth

Permitting Alaska's Hard-Rock Mines
Kahtnu 2
Alaska's agencies work together with the federal government to permit Alaska's hard-rock mines. In this session, the permit coordinator will describe the mine permitting process. The talk will include description of the major permits, the various agency roles in making permitting decisions and a brief synopsis of the National Environmental Policy Act. The presentation will be made by DNR's mining permit coordinator on behalf of Alaska's resource agencies: The Department of Natural Resources, Department of Fish and Game, and Department of Environmental Conservation.
Presenters: Jack DiMarchi, Alaska Department of Natural Resources
Moderator: Bob Loeffler, University of Alaska

SNOWY: A Mixed-Methods Approach To Climate Change On The Lower Yukon River
Tikahtnu D
The SNOWY project uses social and physical sciences to document environmental changes during winter observed by Tribal community members in lower Yukon River communities.
Presenter: Elii Matkin, Yukon River Inter-Tribal Watershed Council
Moderator: Nancy Fresco, University of Alaska

Essential Ingredients For Obtaining Federal Funding: Indian General Assistance Program
Kenakatnu Boardroom
So now you have turned in your EPA Indian General Assistance Program (IGAP) proposal, and will be working with your Project Officer on revisions. What comes next? This session takes a look beyond the traditional Project Officer role and focuses on what the EPA Region 10 Grants Office is looking for in a finished, fundable grant application when they receive it. Presenters will be discussing features of a good final workplan and budget. Presenters will also offer essential steps to follow to ensure your status stays current in the SAM system. Technical assistance in renewing SAM is available upon request during the session.
Presenters: Aaron Simitl, Martha Barber and Gary Bushor, US Environmental Protection Agency
Moderator: Sherry Kimmons, US Environmental Protection Agency
3:30 PM - 4:45 PM cont.

**Sustainable Living: Rhodiola Rosea Potential For High Latitude Agriculture And Sustainable Firewood**

Tubughnenq 5

This session has 2 presentations. Presentation 1: Rhodiola rosea is a perennial plant harvested for the medicinal properties in its root. Rhodiola rosea is unique in that it produces adaptogenic compounds called rosavins and is native to high latitudes and does not require or benefit from traditional agricultural inputs such as season extension and fertilization. Currently, most of the world supply of high quality plants comes from wild harvest in Siberia and China. In Alaska, rhodiola production is being explored as a potentially high-profit more environmentally sustainable alternative crop that is ideal for Bush communities. Presentation 2 discusses the topic of forest management for long term sustained yield as rural residents cut and use firewood for home heating. The effects both positive and negative on local forest timber supplies and wildlife habitat enhancement opportunities or habitat degradation from long term harvesting of firewood will also be introduced.

Presenters: Glen Holt and Steve Brown, UAF Cooperative Extension Service; Petra Illig, Alaska Rhodiola Products

Moderator: John Duffy, University of Alaska Fairbanks

**Tips For Developing A Successful Community Environmental Program For Teens**

Tubughnenq 4

Learn about a very successful model developed by the Anchorage Parks Foundation for their environmental programs that target teens. You will learn some valuable tips for engaging families, businesses and community partners and mentoring youth to make a successful environmental project in any size community. In addition, one of the teens who participated in this program will share how the experience affected them.

Presenters: Beth Nordlund, Anchorage Parks Foundation; Gage Raymond, Youth Employment in Parks

Moderator: Peter Stortz, UAF Cooperative Extension Service -Retired

5:00 PM - 7:00 PM

**EVENING SOCIAL EVENT – Hosted by the EPA Regional Tribal Operations Committee**

Tikahtnu A&B

Come and help us honor the Awardees of the 2014 Daniel Ellanak Environmental Excellence Award at the Evening Social Event hosted by the EPA Region 10 Tribal Operations Committee. The evening agenda includes several presentations, light appetizers, and the Alaska Native Heritage Dancers. For more information see the flyer on Page 27 of the program.

**NOTES:**

Come and help us honor the Awardees of the 2014 Daniel Ellanak Environmental Excellence Award at the Evening Social Event hosted by the EPA Region 10 Tribal Operations Committee. The evening agenda includes several presentations, light appetizers, and the Alaska Native Heritage Dancers. For more information see the flyer on Page 27 of the program.
Region 10 RTOC welcomes all AFE participants to attend an Evening Social Tuesday, February 4 5:00PM—6:30PM

2014 Daniel Ellanak Environmental Excellence Award

Featuring Dance Performance from the Alaska Native Heritage Dancers

Event Schedule

5:00 PM Light Refreshment Buffet
5:15 PM RTOC Region 10: Welcome
5:30 PM Brief Address: Special Speaker
5:45 PM 2014 Daniel Ellanak Award Presentation
6:00 PM Alaska Native Heritage Dancers
6:30 PM Event Concludes
MORNING KEYNOTE EVENT
Tikahtnu A&B

Dr. Thomas P. Quinn, University of Washington

Please join Dr. Thomas Quinn, a professor in the School of Aquatic and Fishery Sciences at the University of Washington, in our morning keynote to learn more of the complex role of Alaska estuaries in the ecology of salmon and trout.

Thomas Quinn’s research, and that of his students, has been devoted to the behavior, ecology, evolution and conservation of salmon and trout. He has worked on all the Pacific salmon and trout species in North America, including studies on their different habitats and life history stages. His career has included extensive work on sockeye salmon in western Alaska, as well as many studies in British Columbia and Washington.

NOTES:

9:00 AM - 10:15 AM

A Perspective: The Case For Less Emphasis On Sub-Slab Data For The Vapor Intrusion Pathway
Kahtnu 1

The use of sub-slab data has become a significant line of evidence when evaluating the vapor intrusion pathway. However, the model of attenuation that we use to apply sub-slab data in decision-making is flawed. An alternate approach relying on an increasing range of tools for evaluating indoor air - the actual point of exposure - will be presented.

Presenter: Ben Martich, Geosyntec Consultants
Moderator: Todd Blessing, Alaska Department of Environmental Conservation

AKMAP Survey Results From Arctic Coastal Plains Surveys (Wetlands & Lake)
Tubughneg 3

The mission of Alaska’s Department of Environmental Conservation’s Division of Water is to improve and protect the quality of Alaska waters. One way the Division carries out this mission is to monitor and report on water quality. The Alaska Monitoring & Assessment Program (AKMAP) fulfills this responsibility through environmental surveys across the state. This presentation will focus on recent surveys including the 2011 Arctic Coastal Plan Wetlands Survey and 2012 Lakes survey. Future surveys and timelines for existing projects will also be discussed.

Presenter: Terry Lomax, Alaska Department of Environmental Conservation
Moderator: Tim Hoffman, Alaska Department of Environmental Conservation

Emergency Preparedness For Rural Residents And Communities To Earthquakes, Wildfire & Extreme Weather
Tubughneg 4

This presentation builds on existing information resources from Federal Emergency Management Administration, Alaska Division of Homeland Security & Emergency Preparedness, and Cooperative Extension’s Emergency Disaster Network. Preparedness involves planning for known and unknown emergencies, taking action that enhances preparedness and maintaining communication during and after an emergency. Understanding the Incident Command System (ICS) is part for emergency preparedness, just as is personal responsibility and preparedness for emergencies.

Presenters: Robert Gorman, UAF Cooperative Extension Service; Valerie Barber and Linda Tannehill, Professor, UAF Cooperative Extension Service
Moderator: Alison York, University of Alaska Fairbanks
ExxonMobil continues to develop the Point Thomson Initial Production System Project, which will deliver 10,000 barrels of condensate daily to the Trans-Alaska Pipeline System infrastructure. This is the first phase of a larger field development which ultimately may lead to the production of an estimated 8 trillion cubic feet of natural gas - 25% of the known reserves on the North Slope of Alaska. This summary of recent construction activities touches on the development of the Central Pad which will contain the production processing facilities, in-field gravel roads, service pier and the Point Thomson airstrip. This development will not only provide initial production of the Point Thomson field but will increase our understanding of the resource as a whole and provide other valuable learning as we continue to increase our presence as an operator on the North Slope.

Presenter: Christina Nordstrom , ConocoPhillips Alaska Inc.
Moderator: Stacey Aughe, Weston Solutions, Inc.

| 10:30 AM - 11:45 AM | **Alaska Wetlands Permitting (404) Program Development - Why, What, When And How**
**Tikhahtnu 4** |
|              | Learn what the State of Alaska is working on with the AS Army Corps of Engineers and the Environmental Protection Agency regarding assuming portions of the Corps 404 wetlands permitting program. |
|              | Presenters: Ben White, Alaska Department of Environmental Conservation; Sharan Stambaugh, Alaska Department of Natural Resources |
|              | Moderator: Katharine Heumann, Alaska Department of Environmental Conservation |
|              | **Alaskan Estuaries: What We Know And Need To Know**
**Kenakatnu Boardroom** |
|              | Estuaries and nearshore zones are some of the most productive ecosystems in the world. These systems are also under increasing threat. |}
|              | Presenters: Rob Campbell, Prince William Sound Science Center; Vanessa von Biela, US Geological Survey; Tammy Hoem-Neher, National Oceanographic and Atmospheric Administration |
|              | Moderator: Doug Limpinsel, National Oceanic and Atmospheric Administration |
|              | **Amchitka Underground Nuclear Test Site Monitoring**
**Tikhahtnu C** |
|              | This session will provide final results and lessons learned from field activities performed on Amchitka in 2011 by the US Department of Energy Office of Legacy Management (LM). During the field project, LM inspected 7 sites on Amchitka where petroleum-contaminated materials are encapsulated in engineered disposal cells. Additionally, LM and personnel from the Alaska Department of Environmental Conservation, Aleutian Pribilof Islands Association, US Fish & Wildlife Service and the University of Alaska, Fairbanks conducted biological sampling on Amchitka and Adak Islands and in the marine waters surrounding both islands, to assess food safety and provide baseline activity concentrations that will support quantitative statistical trending analysis with future sampling results. Updates to the Long Term Surveillance Plan and planning for the 2016 monitoring event will also be presented. |
|              | Presenters: Paul Dar, S.M. Stoller Corp; Merry Maxwell, US Fish & Wildlife Service; Ken Selby, Aleutian Pribilof Islands Association |
|              | Moderator: Mark Kautsky, US Department of Energy |
|              | **Climate Adaptation Strategies: An Intergenerational Effort To Combine Indigenous Knowledge & Science**
**Tikhahtnu E** |
|              | Communities need varying levels of guidance, resources and tools to address climate change impacts to their most important resources. This session brings together local community representatives with experts who create and distribute tools and other resources that can help communities increase their resilience in the face of climate change. While we will talk about Alaska, the data presented will be based on a study conducted in Canada. |
|              | Presenter: Shannon Donovan, University of Alaska Anchorage |
|              | Moderator: Nancy Fresco, University of Alaska |
|              | **Experimental Use Of Tundra Sod For Rehabilitation At The Point Thomson Project**
**Tikhahtnu D** |
|              | In the summer of 2013, experimental uses of tundra sod were undertaken at several locations at ExxonMobil’s Point Thomson Project. Freshly harvested sod from the mine site was used at the Alaska State C-1 Pad to create a vegetated buffer for Stream 24A and sod was placed on a side slope at the Project airstrip. Some sod was also stored for overwintering in preparation for use next summer. This presentation will highlight the initial results of this work, the challenges that were encountered in the field along with the creative solutions that were devised to overcome them, and the methods that were used to minimize manual handling. |
|              | Presenters: Julie McKim and Steve Calder, ExxonMobil Development Company |
|              | Moderator: Maggie Valentine-Graham, Weston Solutions, Inc. |
|              | **Fail To Plan – Plan To Fail: Seasonal Planning For Rural Alaska Landfills**
**Tubughnenq 5** |
|              | Don’t get washed away by storms, or get soggy with spring run-off. Get your “ducks in a row” by attending this presentation on planning how to prepare your landfill for the harsh Alaskan conditions. |
|              | Presenters: Ted Jacobson, US Environmental Protection Agency; Doug Huntsman, Alaska Department of Environmental Conservation |
|              | Moderator: Rebecca Colvin, Alaska Department of Environmental Conservation |
Kodiak’s Renewable Energy Revelation
Kahtnu 1
Over the past five years, Kodiak Electric Association, Inc. (KEA) overhauled its electric grid infrastructure with the construction of a nine megawatt wind farm and installation of an additional 11 megawatts of hydropower generating capacity, which are both integrated together with a three megawatt battery energy storage system. The culmination of these three major projects allow KEA to budget for 99% of all energy sales in 2014 to be powered with renewable-generated energy. Diesel fuel no longer serves as a primary energy source for the community! Join this session to learn how KEA accomplished their renewable energy vision, and hear examples of how the community benefits from these new energy solutions.
Presenter: Jennifer Richcreek, Kodiak Electric Association, Inc.
Moderator: Doug Mutter, Alaska Forum

Reciprocating Internal Combustion Engines, Boilers And Incinerators
Tubughnenq 3
Reciprocating Internal Combustion Engines (RICE), Boilers and Incinerators - These all have new requirements and compliance dates very soon or recently past, and there are many sources in Alaska that are subject to these changes.
Presenter: Heather Valdez, US Environmental Protection Agency
Moderator: John Pavitt, US Environmental Protection Agency

Regulating Coal Mines
Kahtnu 2
Coal mines have a specific set of federal requirements that are administered by the State of Alaska, Department of Natural Resources (DNR). The DNR administers the federal program, and evaluates coal mine applications, and inspects and enforces the regulations. This session will describe the system for coal mine regulation and enforcement.
Presenter: Cindi Godsey, US Environmental Protection Agency
Moderator: Russ Kirkham, Alaska Department of Natural Resources

Beyond Indian General Assistance Program: Moving From Capacity Building To Implementation
Tikahtnu C
Designed to inform the next phase of tribal environmental program development, the Beyond GAP project will incorporate tribal voices in a visioning process to move from capacity building to implementation. This presentation will provide a brief overview of the history and design of the project and then create a forum for participants to share their own perspectives on the challenges and opportunities they are currently facing in their communities with regards to environmental program implementation.
Presenters: August Cabrera and Fran Wilshusen, Northwest Indian Fisheries Commission
Moderators: Michelle Davis and Santina Gay, US Environmental Protection Agency

Building Environmental Occupation Endorsements For A Rural Workforce
Kenakatnu Boardroom
A discussion on the resources necessary to make a successful Occupation Endorsements that will help to train a rural environmental workforce. Two Rural Environmental Technician Occupation Endorsements that are proposed include Solid Waste Management and Surface Water Quality. Participants are asked to share experiences from successful programs as well as tools and resources that help programs create leadership experiences for students.
Presenters: Dan Bogan, University Alaska Anchorage; Sue Flensborg, Bristol Bay Native Association; Lynn Zender, Zender Environmental
Moderator: Todd Radenbaugh, University of Alaska Fairbanks

Climate Change Adaptation: Linking Alaskan Communities With Resources To Help Meet Challenges
Tikahtnu E
Alaskan communities need varying levels of guidance, resources and tools to address climate change impacts to their most important resources. This session brings together local community representatives with experts who create and distribute tools and other resources that can help communities increase their resilience in the face of climate change.
Presenters: Michael Brubaker, Alaska Native Tribal Health Consortium; Raymond Paddock III, Central Council of the Tlingit and Haida Indian Tribes; Stephen Gray, Alaska Climate Science Center; Terry Johnson, University of Alaska Fairbanks - Seagrant
Moderator: Tonya Graham, Geos Institute

DEC Water Quality Standards Triennial Review
Tubughnenq 4
This presentation will provide information on the role of the Triennial Review and relationship to water quality standards, proposed areas of research and how the public can be involved in the process.
Presenter: Brock Tabor, Alaska Department of Environmental Conservation
Moderator: Tim Hoffman, Alaska Department of Environmental Conservation
2:00 PM - 3:15 PM cont.

Film Festival
Tikahtnu D
2:00pm Perspectives on Marine Debris
Resurrection Bay Conservation Alliance
2:15pm Making a T-Shirt
2:45pm Pot Fisheries
2:50 pm Road to Revitalization: Brownfield Challenges in Rural Alaska
Moderator: Doug Huntman, Alaska Department of Environmental Conservation

Hands On Solid Waste Presentation
Tubughnenq 5
This presentation is a hands on demonstration of rural landfill practices and techniques. This session will include multiple audience-participation demonstrations related to rural landfill management. The topics addressed will include: Compaction: What is it? What does it look like? What can I do about it? Landfill Signs: Why are they important? What should they say? Separation: Can I burn this? What are my options? and More! Come have some fun and bring your solid waste questions!!
Presenters: Kym Bronson, Sandi Woods, and Trisha Bower, Alaska Department of Environmental Conservation
Moderators: Rebecca Colvin, Alaska Department of Environmental Conservation

How To Use Department Of Environmental Conservation Data For Environmental Mapping
Kahtnu 1
The Alaska Department of Environmental Conservation (DEC) has a growing collection of environmental data that can be accessed on the Internet using geographic information system (GIS) maps and other services. The first part of this presentation will focus on how to use existing Internet maps to view DEC environmental data such as contaminated sites, impaired waters, marine debris, solid waste sites, seafood processing facilities, drinking water protection areas, coastal photography and much more. The second part of this presentation will focus on how the public can use DEC data to create their own maps with any of a large variety of mapping tools for research, environmental assessment, outreach, education and other applications.
Presenter: Cliff Jones, Alaska Department of Environmental Conservation
Moderator: Ty Keltner, Alaska Department of Environmental Conservation

Tribal Consultation - Agency Consultation Processes And Projects
Kahtnu 2
A panel of federal agency representatives provide short briefings on their Tribal consultation process and the points where project Consultation occurs. Agency representatives will provide general information on anticipated Tribal consultation opportunities that may occur in the coming year.
Presenters: Cathy Villa and JR Herbst, US Environmental Protection Agency; Sudie Hargis, US Coast Guard; Crystal Leonetti, US Fish & Wildlife Service; Jean Gamache, National Park Service; Elizabeth Cook, US Army; Givey Kochanowski, US Department of Energy; Tom Wolforth, US Army National Guard
Moderator: Doug Mutter, Alaska Forum

Unmanned Aircraft Systems In Alaska And The Arctic
Tubughnenq 3
Interest in unmanned aircraft systems (UAS) is growing with applications moving from the military into law enforcement and now commercial mapping. Alaska has been a leader in UAS research with a variety of platforms and sensors conducted by the University of Alaska Fairbanks. This presentation explains the proliferation of UAS technology and how to select the appropriate platform and sensor for applications such as monitoring wildfires, counting marine mammals, and monitoring critical infrastructure such as pipelines for oil spills.
Presenters: Keith Cunningham, University of Alaska Fairbanks; Marty Rogers, AK Center for Unmanned Aircraft Systems Integration
Moderator: Win Westervelt, CH2M HILL

3:30 PM - 4:45 PM

Alaska Water Quality Standards Antidegradation Policy Implementation Update
Kahtnu 1
The Alaska Department of Environmental Conservation (DEC) is developing final antidegradation implementation methods to help implement its existing antidegradation policy. “Antidegradation” is a process for determining whether and to what extent high water quality can be lowered. DEC convened a workgroup in early 2012 to provide input on various core elements of antidegradation. The workgroup recommendations have been provided to DEC. This session is part of DEC's additional outreach to describe antidegradation, the workgroup recommendations and to seek additional input before drafting regulations and the formal public notice process for the regulations.
Presenter: Earl Crapps, Alaska Department of Environmental Conservation
Moderator: Ty Keltner, Alaska Department of Environmental Conservation
Fieldscope Database For Social Networking, Community Research & Environmental Data Mapping

Tubughnenq 4

The Fieldscope database was co-developed by the Yukon River Inter-Tribal Watershed Council and National Geographic to assist Alaska Native communities along the Yukon River with community-based research and monitoring of water quality, permafrost and Indigenous Knowledge issues. This tool is now available to other indigenous groups in Alaska. The presentation will discuss how to access and use Fieldscope to store and visualize your community-generated data.
Presenter: Maggie Massey, Yukon River Inter-Tribal Watershed Council
Moderator: Win Westervelt, CH2M HILL

Our Work, Our Life: Fisheries, Seafood And Maritime Careers In Alaska

Tubughnenq 3

This session will consider all of the people and all of the diverse jobs in our state that work on, near, or with the oceans, estuaries and rivers of our state. What are these jobs, what skills and knowledge do they use and how can we make sure that more Alaskans understand these opportunities? How can our young people find their way to these careers? Educators, employers and Alaskans come together to consider the thousands of workers in our state who depend on our waters.
Presenter: Todd Radenbaugh, University of Alaska Fairbanks
Moderator: Paula Cullenberg, University of Alaska Fairbanks

Film Festival

Tikathlon D

3:30pm New Explorers – Six short films made by students
3:50 pm Waterways: Language, Culture, and the Environment in Alaska’s Upper Tanana
4:15 pm Entanglement of Stellar Sea Lions in Marine Debris: Identifying Causes and Finding Solutions
4:30 Sitka Gateway to the Tongass and other short films
Moderator: JR Herbst, US Environmental Protection Agency

Purchasing Heavy Equipment - Things To Look Out For When Selecting

Tubughnenq 5

Learn valuable information on what to look for when purchasing heavy equipment for rural landfills. Join in on a discussion of the cost difference between new and used equipment, what size equipment is appropriate for remote landfills and basic maintenance tips you need to know. Tier 4 engines and compatibility with rural fuel supplies will be presented as well as “what you need to know when buying a garbage baler for managing rural solid waste”.
Presenter: Richard “Doc” Kimball, Yukon Equipment Inc.
Moderator: Ted Jacobson, US Environmental Protection Agency

Our Work, Our Life: Fisheries, Seafood And Maritime Careers In Alaska

Tubughnenq 3

Region 10 US Environmental Protection Agency’s Adaptation Planning

Tikathlon E

Representatives of the US Environmental Protection Agency will discuss the National and Regional Climate Change Adaptation planning work and the opportunities for tribal coordination and public participation.
Presenter: Mike Cox, US Environmental Protection Agency
Moderator: Michelle Davis, US Environmental Protection Agency

How Shaktoolik Plans To Survive Flooding And Erosion In The Face Of A Changing Climate

Kenakatnu Boardroom

The Shaktoolik Planning Committee, with assistance of University of Alaska Sea Grant and Glenn Gray, have conducted a nearly two-year process of considering all options for protecting the village’s people and structures from the growing threat of erosion, and of inundation during extreme storm events. In this presentation participants will describe the considerations, the process of arriving at decisions, and which options they have selected.
Presenter: Terry Johnson, University of Alaska Fairbanks - Sea Grant
Moderator: Nancy Fresco, University of Alaska

Tribal Consultation - How Tribal Governments Can Make Consultation More Effective

Kaltaunu 2

This session will provide guidance to Tribes on how they can provide input during consultation and other regulatory processes to have the most effective impact on agency decision.
Presenter: Bob Loeffler, University of Alaska
Moderator: Tom Wolfforth, US Army National Guard
**February 6**

**8:00 AM - 11:45 AM**

**Statement Of Cooperation - Executive Steering Committee Meeting**

*K’enakatnu Boardroom*

By invitation only. This session is a closed session of the steering committee.

**8:00 AM - 8:45 AM**

**MORNING KEYNOTE EVENT**

*Tikahtnu A&B*

Craig Welch, *Environmental Reporter For The Seattle Times*

Craig Welch, Environmental Reporter for The Seattle Times, spent most of 2013 traveling around the Pacific Ocean — from Papua New Guinea to Dutch Harbor, and from rural Indonesia to Hawaii — to write and produce a groundbreaking multimedia series on ocean acidification called “Sea Change: The Pacific’s Perilous Turn.” For 14 years Welch has written about hitching helicopter rides with scientists in the melting Arctic, prowling the Oregon woods for endangered owls, tracking the development of Wyoming’s oil fields and combing remote islands off the Washington coast for invasive rabbits. Welch has been the recipient of numerous local, regional and national awards. The National Society of Environmental Journalists twice named him Outstanding Beat Reporter of the Year. He spent the 2007 academic year at Harvard University as a fellow with the Nieman Foundation for Journalism. His work has appeared in Smithsonian magazine, Newsweek, and he wrote and co-produced a segment on ocean acidification for The News Hour on PBS. His first book, Shell Games, a nonfiction detective story about the hunt for wildlife smugglers, won the national Rachel Carson Environment Book Award in 2011. Craig Welch lives in Washington State with his family and gets outside as often as he can.

**9:00 AM - 10:15 AM**

**Basic Emergency Management Principles**

*Kahtnu 1*

Basic principles of emergency management with a special emphasis on considerations for urban and rural settings in Alaska. Presenters: Jeff Ennenga and George Coyle, Alaska Division of Homeland Security and Emergency Management

Moderator: Kim Weibl, Alaska Division of Homeland Security and Emergency Management

**Bedbugs In Alaska**

*Kahtnu 2*

Bedbug infestation has become an increasingly common occurrence in Alaska. Controlling bedbugs can be a challenge, especially in our diverse state. Often a ‘one-size-fits-all’ approach to bedbug control does not work for some individuals or communities, especially in rural or remote locations. In this presentation we will be looking at bedbug biology as well as suggesting some tools for control strategies based on available resources in different parts of the state.

Presenters: Leif Albertson, UAF Cooperative Extension Service; Katie Lynn Burbage, Tanana Chiefs Council

Moderator: Meg Burgett, UAF Cooperative Extension Service

**Dispersant Use Policy In Alaska**

*Tubughnenq 5*

The Alaska Regional Response Team, an interagency government spill response group, has drafted a new proposed policy for the use of oil dispersants in Alaska to ensure a better regulated capability and preauthorization in higher risk maritime transit zones. This policy is out for public comment until February 14, 2014. Dispersant use is a complex, often controversial issue. Panelists will provide perspectives on the proposed policy based on their experiences and equities.

Presenters: Mark Everett, US Coast Guard; Mark Swanson, Prince William Sound Regional Citizens’ Advisory Council; Doug Helton, US National Oceanic and Atmospheric Administration; John French, Pegasus Environmental Solutions — Alaska; Rick Bernhardt, Alaska Department of Environmental Conservation; Chris Field, US Environmental Protection Agency

Moderator: Doug Mutter, Alaska Forum

**Film Festival**

*Tikahtnu D*

9:00am The Story of Bottled Water — Annie Leonard
9:15am The Story of Electronics — Annie Leonard
9:30am The Story of Solutions — Annie Leonard
9:45am Gwich’in Women Speak — The Sacred Place Where Life Begins

Moderator: Santina Gay, US Environmental Protection Agency
Documenting Subsistence Uses And Resources

**Tubughnenq 3**
This session focuses on two subsistence-related projects funded through the Coastal Impact Assistance Program. The first project will improve understanding of fish and wildlife resources that are potentially impacted by resource development activities in the Chukchi Sea and Bering Sea. This project systematically documents coastal community environmental information to enumerate fish and wildlife harvests, documents local observations of changes in the environment, and maps community subsistence resource and land-use patterns. The goals of the second project is to describe the fish and aquatic resources of the Chipp, Ikpikpuk, Topagoruk, Meade, and Inaru river systems using both qualitative and quantitative metrics such that a baseline condition can be established. Once the baseline is established resource managers are better able to protect those species upon which subsistence users rely. Presenters: Nicole Braem and Bradley Parker, Alaska Department of Fish and Game
Moderator: Sylvia Kreel, Alaska Department of Natural Resources

Out-Of-State And Natural Contributions To Baseline Atmospheric Mercury Deposition In Alaska

**Tubughnenq 4**
Baseline mercury levels in Alaska are affected by non-Alaskan sources because mercury undergoes long-range transport, in particular, inter-continental transport from East Asia and Europe to North America. There are also natural sources of mercury such as volcanoes, oceans and mercury-enriched soil that contribute to Alaska mercury deposition (the transfer of mercury to the ground during precipitating or dry time periods). This presentation provides the results of a computer modeling study that simulates the global cycle of atmospheric mercury to estimate the contributions of global man-made and natural mercury sources to mercury deposition in Alaska. Presenter: Krish Vijayaraghavan, Environ International Corporation
Moderator: Kate McLaughlin, Alaska Forum

Problems And Solutions For Dust On Village Roads

**Tikahtnu C**
Panelists from: Polar Supply, Department of Transportation, Alaska Native Tribal Health Consortium and Midwest Industrial Supplies will discuss problems in the villages from road dust and solutions to reduce the dust. Presenter: Steve Hickman, Polar Supply Company; Bobbi Ann Barnowski, Native Village of Old Harbor
Moderator: Richard Porter, Knik Tribe

Traditional Observations Of Climate Change

**Tikahtnu E**
“Our Voices, Sharing Our Ways Forward.” During this session, there will be an opportunity for Tribal members from all over Alaska to share their observations on the impacts of a changing climate and its impact on a traditional way of life. Presenter: Victoria Hykes Steere, Alaska Pacific University
Moderator: Michelle Davis, US Environmental Protection Agency

AK Regional Response Team: Alaska Unified Plan Updates And Tribal Government Interaction Guidelines

**Tubughnenq 5**
Co-Chairs of the Alaska Regional Response Team will provide a status update on changes to the Alaska Unified Plan and share information on the Tribal Government Interaction Guidelines. Presenters: Chris Field, US Environmental Protection Agency; Mark Everett, US Coast Guard
Moderator: Nick Knowles and Tami Fordham, US Environmental Protection Agency

Creating Safe And Healthy Tribal Homes

**Tikahtnu C**
Panelists from Alaska Healthy Homes Workgroup will describe the “Air Matters” program and the 12 tools used to empower residents to safeguard their home from airborne and toxic pollutants. Presenter: Gillian Mittelstaedt, Tribal Healthy Homes Northwest
Moderator: Richard Porter, Knik Tribe

Film Festival

**Tikahtnu D**
10:30am North to Alaska, Invasive Species
11:00am Sustainable Northern Shelter – Atmautluak
11:20am Second Order Science, film on global climate change
Moderator: Karen Kroon, AK Forum

Fish In Alaska: How Environmental Contaminants Impact Them & How Their Health Impacts Our Health

**Tikahtnu E**
Some environmental contaminants can be found naturally in the ecosystem while others are generated by various industries. These chemicals can be deposited locally or transported long distances. They can accumulate in the ecosystem and food chain then finally concentrate in fish. Fish are a critical component of the diet of many in Alaska. Fish harvesting and consumption have numerous benefits that are not only nutritional, but cultural and physical as well. But just how much fish can you safely consume, and how is that number generated? This session will focus on 1) The impact of environmental contaminants on fish and how the Alaska Department of Environmental Conservation monitors those impacts; 2) Fish consumption recommendations; and 3) Water quality criteria for State freshwater and marine waters. How does the state derive human health criteria? What are the potential opportunities and challenges? Presenters: Robert Gerlach and Brock Tabor, Alaska Department of Environmental Conservation; Ali Hamade, Alaska Department of Health and Social Services
Moderator: Sylvia Kreele, Alaska Department of Natural Resources
How Are Your Berries?  
Kahtnu 1
We will review the results of a statewide survey that asked rural Alaskans to identify which species of berries were important as subsistence food, and to describe any changes they had seen in the local abundance and quality of berries. The audience will be invited to share observations about recent berry harvests in their regions. The goal of this workshop is to build a framework for understanding how climate change may affect wild berries.
Presenters: Jerry Hupp, US Geological Survey; Michael Brubaker, Alaska Native Tribal Health Consortium
Moderator: Theo Garcia, Knik Tribe

Managing Household Hazardous Waste & RCRA Regulations As They Pertain To Universal Waste & Used Oil  
Kahtnu 2
Emerald Alaska and Total Reclaim present an educational session that focuses on management of household hazardous waste and Resource Conservation and Recovery Act (RCRA) regulations as they pertain to universal waste and used oil. The presentation will highlight EPA educational materials concerning RCRA regulations. The presenters from Total Reclaim and Emerald Alaska will share their combine wealth of knowledge about household hazardous waste and non-hazardous waste removal and transportation.
Presenter: Reilly Kosinski, Total Reclaim
Moderator: Larry Zirkle, Total Reclaim

Renewable Energy Projects In Alaska  
Tubughnenq 3
Since the Alaska Legislature passed landmark legislation in 2008 to launch the Renewable Energy Fund, the Alaska Energy Authority, with legislative approval, has given over 250 grants and $227 million for projects around the state. Join this panel of experts representing wind, hydroelectric, biomass, geothermal, solar and heat recovery to hear how renewable energy contributes to community and environmental well-being. Panelists will also discuss the potential of various renewable energy technologies around Alaska, and explain how communities can tap into available financial resources for developing renewable energy projects.
Presenters: Rich Stromberg, Alaska Energy Authority; George Hornberger, Iliamna-Newhalen-Nondalton Electric Cooperative
Moderator: Sean Skaling, Alaska Energy Authority

Small Community Emergency Response Plan (SCERP)  
Tubughnenq 4
Successful management of a disaster begins at the local level. When a community is prepared to deal with a disaster the impact can be minimized and lives may be saved. One key to community preparedness is a community emergency plan that defines how the community will manage disasters. The plan should include local, regional, and state resources that support local response. The Small Community Emergency Response Plan is a new, exciting approach to emergency management for small communities.
Presenters: Julie Harvey and Mariel Fonteyn, Alaska Division of Homeland Security and Emergency Management
Moderator: Kim Weibl, Alaska Division of Homeland Security and Emergency Management

12:00 PM - 1:45 PM

NOON KEYNOTE EVENT  
Tikahtnu A&B
John Huston, Explorer  
Leadership Lessons from the North Pole: Optimism, Teamwork, Perseverance
Skiing unsupported to the North Pole has been called the “toughest trek on the planet.” John Huston and his expedition partner are the first and only Americans to have accomplished this feat. This multimedia presentation will use John’s journey to the North Pole as a vehicle to discuss taking on challenges in your professional and personal endeavors. Themes include leadership, teamwork, perseverance, optimism, and planning. The narrative is about John’s journey to the North Pole, but the message is about you and how you can reach your goals. John’s award winning book, Forward, will be available at the event. Takeaway points covered in the presentation: Setting and achieving goals, embracing challenge, working in a team, optimism, the power of mentor-ship, and working with change.
Alaska Science Catalog & The Southeast Alaska GIS Library: Working To Meet Your Geospatial Needs!

Kahtnu 1
Got a science data question? Just ask Alaska Science Catalog (ASC)! - a one-stop public portal for the discovery, distribution and visualization of scientific and geospatial information for Alaska. Find out how the catalog can be used to promote stewardship and use of scientific and geospatial data that is required to answer research and management questions. The range of human activities and wildlife habitat occurring at the interface between terrestrial and marine zones in Southeast Alaska makes the coastal zone both complex and difficult to manage. The SE Alaska GIS Library and its partners identified access to a broad range of coastal geospatial data as a starting point for resource managers to navigate this complexity. Through partner support, the Coastal Resource Management Module is a family of services hosted by the SE Alaska GIS Library that facilitates access and visualization to a broad range of users.

Presenters: Kacy Kreiger, University of Alaska Anchorage; Kim Homan, University of Alaska Southeast
Moderator: Sarai Timothy, University of Alaska Southeast

Arctic Air Quality Workshop

Kahtnu 2
This session will provide an update on the status of a study being conducted for effects of oil and gas exploration, development, and production on the Arctic Outer Continental Shelf.

Presenter: Virginia Raps, Bureau of Ocean Energy Management
Moderator: Mary Anne Porter, US Environmental Protection Agency

Beginning A Conversation About Climate Change:
A Report Out on Community Outreach

Tikakhntu E
Tribal Presenters will discuss how they are doing educational outreach to their communities on climate change in order to begin planning their responses to the new problems it creates.

Presenters: Nick Carter, Mayor, Native Village of Eek; Ben Balivet and Sophie Chaliak, AVCP; Brenda Louise, Petersburg Indian Association
Moderator: Susan Rose Wotkins, Northern Arizona University

Disposal Options For Construction And Demolition Waste In Rural Alaska

Tubugnhneq 5
This presentation will discuss the available disposal options for construction and demolition (C&D) waste generated by projects in rural Alaska. The presentation will be directed towards both contractors and rural community members. Contractors and consultants doing work in rural Alaska need to plan ahead to ensure the legal disposal of C&D debris. This presentation will inform both contractors and community members of the available options for disposal and emphasize the importance of early planning and communication. The different options for C&D waste disposal and the application process for each option will be discussed including: disposal in a permitted community landfill, a one-time disposal authorization, and an inert waste monofill permit.

Presenters: Rebecca Colvin and Neil Lehner, Alaska Department of Environmental Conservation
Moderator: Trisha Bower, Alaska Department of Environmental Conservation

Hazard Mitigation And Rural Community Resilience

Tubugnhneq 3
A focus on preparation before disaster events occur in rural communities and on the ability of a community to utilize available resources to respond to, withstand and recover from adverse situations.

Moderator: Kim Weibl, Alaska Division of Homeland Security and Emergency Management

NOTES:
February 6

**A Meaningful Role? Understanding A Key Phrase In The National Interest Lands Conservation Act**

**Kahtnu 1**

The purpose of this presentation is to describe key features of “A meaningful role in the management of fish and wildlife” as stated in the Alaska National Interest Lands Conservation Act (ANILCA), for rural subsistence groups in Western Alaska.

Presenters: Kevin A. Bartley, University of Alaska Anchorage; Jeffrey J. Brooks, US Fish & Wildlife Service

Moderator: Theo Garcia, Knik Tribe

**Bringing Science Home To Your Community**

**Kahtnu 2**

Solving environmental problems in Alaskan communities usually requires sound scientific information which may be difficult to find or which may not exist for your area. This workshop will provide environmental specialists, educators and community members with tips about how to communicate and work with scientists to collect, receive and understand the scientific information you need.

Presenters: Laurie Morrow, Alaska SeaLife Center; Marilyn Sigman, Alaska Sea Grant

Moderator: Robin Dublin, Alaska Center for Ocean Science Education Excellence

**Internet-Connected Sensors And Thermal Infrared Technology For Environmental Data Collection**

**Tubughnenq 3**

This session has two presentations. The first presentation discusses three case studies of improving groundwater management by using low-cost internet-connected sensors and actuators coupled with a cloud-based data management and control platform. Remote data collection can include a wide variety of data related to climate, energy and habitat change. The second presentation discusses thermal infrared (TIR) remote sensing technology for mapping surface temperature patterns in rivers and streams. This technology has been applied to small coastal streams in Alaska to provide baseline data for Pacific Salmon habitat. The presentation will discuss the accuracy and uncertainty of TIR remote sensing and how these data provide insight on climate changes of thermal fish habitat in coastal streams.

Presenters: Sean Ragain, Geopsyte Consultants; Russell Faux, Quantum Spatial

Moderator: Win Westervelt, CH2M HILL

---

**NOTES:**

![Image of the page with conference schedule]

---

**Statement Of Cooperation - Executives & Elders Talking Circle**

**Tikahtnu C**

By invitation only. This is a closed session of the steering committee.

---

**2:00 PM - 3:15 PM cont.**

**Methyl Mercury In Subsistence Pike And Burbot In Western Alaska**

**Tubughnenq 4**

Methyl mercury measured in pike and burbot (lush) from traditional and well-used subsistence fishing sites in the lower Yukon and lower and middle Kuskokwim Rivers is high enough to be a public health concern. The most recent data are shared as they apply to human toxicology and the protection of the most sensitive members of our population: “women who are or can become pregnant, nursing mothers, and children 12 years and under.” This session will also discuss the development of fish consumption guidelines.

Presenters: Ali Hamade and Joe Sarcone, Alaska Department of Health and Social Services

Moderator: Michael Kinser

---

**3:30 PM - 4:45 PM**

**Statement Of Cooperation - Executives & Elders Talking Circle**

By invitation only. This is a closed session of the steering committee.

---
Overview Of The Northwest Arctic Borough Subsistence Mapping Project

Tubughnenq 4

A description of the Northwest Arctic Borough Subsistence Mapping Project goals, objectives, methods, accomplishments and applications will be provided. The people of the Northwest Alaska harvest fish, game and plants to feed their families while natural resources provide jobs. Changes in climate, increased marine shipping and proposed development are expected in the near future. Responding to these changes, the project will produce an updated atlas of maps combining local traditional knowledge and formal science showing where people look for food by season in 7 coastal Arctic communities including Noatak, Kivalina, Deering, Buckland, Selawik, Noorvik, and Kotzebue. Additionally maps will be made documenting important ecological areas and potential resource development areas surrounding these communities. The maps will be used as baseline information supporting both food security and development during Borough land use planning, zoning and permitting.

Presenters: Zach Stevenson and Lance Kramer, Northwest Arctic Borough
Moderator: Sylvia Kreele, Alaska Department of Natural Resources

-Stump The Chumps

Tubughnenq 5

The presentation will be an “open for questions” forum. Audience members can ask the “CHUMPS” questions pertaining to problems with managing the Waste Stream in their communities. The “Chumps” will try to answer all the questions and those they can’t answer will be researched and an answer provided at a later date.

Presenters: Ted Jacobson, US Environmental Protection Agency; Doug Huntman, Alaska Department of Environmental Conservation
Moderator: Rebecca Colvin, Alaska Department of Environmental Conservation

The Science, Culture And Policy Of Tribal Environmental Contaminant Exposure And Health

Kenakatnu Boardroom

Presenters will summarize the latest research in tribal toxicology projects. The first presenter from Agency for Toxic Substances and Disease Registry (ATSDR) will focus on the adverse effect of a chemical on a human being or human toxicology is compared and contrasted with the adverse effect of a chemical on a way of being in an indigenous population or cultural toxicology. The discussion centers on environmental contaminant exposure in Alaska Native people and the related concerns for cancer. Additionally, the presenters from the National Tribal Toxics Council (NTTC) will provide an overview of the Council and current projects that the members are working on, such as PCBs and flame retardants; and are looking for input on tribal representative requests for local education and outreach materials.

Presenters: Joe Sarcone, US Department of Health and Human Services; Gary Hay, Copper River Native Association; Lance Whitwell, Native Village of Venetie Tribal Government
Moderator: Santina Gay, US Environmental Protection Agency

Tsunami Awareness

Tikahtnu D

This is an basic awareness-level course that provides a basic understanding of tsunamis, hazard assessment, warning and dissemination and community response strategies to effectively reduce tsunami risk. The goal of this course is to enhance the participants’ abilities to support their organizational preparedness and response efforts.

Presenter: Erv Petty, Alaska Division of Homeland Security and Emergency Management
Moderator: Kim Weibl, Alaska Division of Homeland Security and Emergency Management

Valuing Ecosystem Services In The Mat-Su Borough

Tikahtnu E

This session has 2 presentations. Presentation 1: Open space provides ecosystem services to communities such as clean water for drinking, local food production, flood control and tourism and recreation opportunities. Neglecting to conserve open space and the services it provides can be a costly oversight in the long-term. This presentation discusses results from a project to value these ecosystem services and how this information can be used for the long-term benefit of Mat-Su communities. Presentation 2: This project estimates local Mat-Su residents’ preferences and values related to five environmental attributes based upon five focus groups held in 2012. The study measures residents’ willingness to pay for farm land conservation, salmon recovery and access to recreation, as well as measures people’s preferences towards continued population growth and a variety of job sectors.

Presenters: Kim Sollien, Great Land Trust; Toby Schwoerer, University of Alaska Anchorage
Moderator: Grace Cochon, US Department of Interior
8:00 AM - 11:45 AM

**Why Geotourism?**
**Tubughnenq 4**

This workshop will demonstrate how Geotourism can help Alaska’s rural communities in their sustainability efforts. The goal is to help preserve, protect and educate in ways that support the natural and cultural distinctiveness of places and the well-being of the people who live there. By featuring the destination as a whole, a Geotourism strategy can strengthen the case for responsible, beneficial tourism by embracing all tourism assets uniquely distinctive to the locale. Advocates for those assets can form a constituency of stewardship that have enough political and economic clout to challenge local threats to the place’s natural and cultural resources while building a unique marketing case for their destination.

Presenter: Anthony Nakazawa, UAF Cooperative Extension Service
Moderator: Meg Burgett, UAF Cooperative Extension Service

8:30 AM - 12:30PM

**Oil Spill Recovery Institute Advisory Board Annual Meeting**
**K’enakatnu Boardroom**

This is a semi-annual meeting of the Prince William Sound Oil Spill Recovery Institute Advisory Board. The Oil Spill Recovery Institute was established by the Oil Pollution Act of 1990 to fund and carry out research and development and education on Arctic and sub-Arctic oil spills; spill response technologies; and the assessment of impacts to the environment, economy and lifestyles of Alaskans.

Presenter: W. Scott Pegau, Oil Spill Recovery Institute

8:00 AM - 4:45 PM

**8-Hour Rural Alaska Landfill Administrator (RALA) Training For Village Administrators**
**Tubughnenq 3**

The Rural Alaskan Landfill Administrator (RALA) training is a full day (eight hour) class that focuses on duties required of rural village administrators and Indian General Assistance Program coordinators. This training is divided into ten sections and will explore the basics of operating a landfill, required administrative paperwork, permits, selecting an operator and collection program. The presentation and general discussion will cover solid waste topics in an effort to ensure success at a rural site.

Presenters: Ted Jacobson, US Environmental Protection Agency; Doug Huntman, Alaska Department of Environmental Conservation

**Healthy Home Activities Across Alaska: Local Perspectives On What Works**
**Tubughnenq 5**

For participants interested in learning and sharing information about “Healthy Homes,” this workshop may be of interest to you. Presenters will share “healthy home” programs at the community level focusing on: • Learn how tribes have used different types of tools (surveys, checklists, instruments) to gather information about health and safety hazards in their communities • Talk with agencies and organizations that provide funding for healthy home activities, learning about the type of funds they offer, when to apply and what a competitive grant looks like (e.g., HUD, EPA, BIA, DOE, and ANTHC) • Hear about effective methods for educating and empowering residents — your partner in creating safe and healthy homes.

Presenters: Aileen Gagney and Jillian Mittelstaedt, Tribal Healthy Homes Northwest; Mahri Lowinger, US Environmental Protection Agency; Leif Albertson, UAF Cooperative Extension Service; Brian Hirsch, US Department of Energy; AJ Salkoski, Alaska Native Tribal Health Consortium; Carma Reed, US Housing and Urban Development

8:00 AM - 5:00 PM

**HAZWOPER**
**Tikahtnu E**

You must be registered under the weekly rate or the day rate for Friday to attend this event. If you are registering guests who are attending the full day Friday HAZWOPER session, please enter the total number participating including yourself and your guests. All HAZWOPER participants will be charged a $25 fee for course materials.
9:00 AM - 11:00 AM

**Community Based Monitoring: Furthering The Discussion On Best Practices For Alaska**

**Kahtnu 1**

Alaskans understand the dynamic nature of our coasts and river watersheds and depend on the long-term health of these resources for food, recreation and economic value. With climate change hitting Alaska hard, an accelerated pace of change has heightened interest in local observations as a way to monitor, understand and adapt to change. Community Based Monitoring (CBM) programs are being initiated by a number of tribal, nonprofit and government entities in communities across Alaska. Join the Alaska Ocean Observing System (AOOS) and Alaska Sea Grant as they launch a project to identify and document best practices for new and ongoing CBM programs that will help ensure they are high quality, culturally appropriate, meet local needs, are designed to actually collect data of value and eventually return data to those collecting it. This workshop will feature presentations by several current Alaska CBM programs and provide participants the opportunity to provide input into the discussion of best practices. The session is a prelude to a larger workshop hosted by AOOS and Alaska Sea Grant on April 1-2 in Anchorage. For more information on that workshop, go to http://seagrant.uaf.edu/conferences/2014/community-based-monitoring/index.php

Presenters: Ellen Tyler and Molly McCammon, Alaska Ocean Observing System/Sea Grant

Moderator: Paul Gill, US Coast Guard

9:00 AM - 11:45 AM

**Film Festival**

**Tikahtnu D**

- 9:00am Sitka: Gateway to the Tongass Short Films
- 9:20am Sustainable Northern Shelter – Atmautluak
- 9:40am Gwich’in Women Speak – The Sacred Place Where Life Begins
- 10:00am Waterways: Language, Culture, and the Environment in Alaska’s Upper Tanana
- 10:30am Big Bear Country
- 11:00am Entanglement of Stellar Sea Lions in Marine Debris: Identifying Causes and Finding Solutions
- 11:15am Perspectives on Marine Debris
- 11:30am New Explorers

Moderators: JR Herbst and Santina Gay, US Environmental Protection Agency

1:00 PM - 2:30 PM

**Indian General Assistance Program Closing Session**

**Tikahtnu C**

All GAP representatives travelling under the grant are strongly encouraged to attend this wrap up session, where we will recap the week’s events, share observations and make announcements for upcoming training opportunities.

Presenters: Santina Gay and Tami Fordham, US Environmental Protection Agency

Moderators: Cathy Villa and JR Herbst, US Environmental Protection Agency

---

**NOTES:**

**Overview Of The Mining Industry: Property Rights, Environment, Economics And Issues**

**Kahtnu 2**

This 1-day course provides an overview of the mining industry, especially as it exists in Alaska. It will provide participants with an understanding of the exploration and development process, environmental issues, industry economics, the permitting/regulatory process and public issues. The course is designed for those who may one day work in the industry, those who are affected by it, and those who are interested in the issues of the day that one hears about almost daily on TV or in the press. The course is taught by a UAA Visiting Professor. It is an abridged version of a short-course taught at UAA last year. Participants will receive a certificate of completion at the end of the course.

Presenter: Bob Loeffler, University of Alaska

Moderator: Toby Schwoerer, University of Alaska Anchorage
Welcome to the Alaska Forum on the Environment
Downtown Anchorage Restaurant Map

A
Dianne's Restaurant
907.279.2439 / 750 W 7th Ave
Homemade soups, breads and desserts

B
Genoa and Sal's Famous
New York Grill at Platinum Jaxx
907.344.5900 / 901 W 6th Ave
Informal lunch & dinner

C
Ginger
907.929.3680 / 425 W 9th Ave
Asian fusion/Pacific Rim

D
Glacier Brewhouse
907.274.2739 / 737 W 5th Ave
Brewpub lunch & dinner

E
Fletcher's / Hotel Captain Cook
907.343.218 / 939 W 5th Ave
Classic pub fare

F
Whale's Tail / Hotel Captain Cook
907.343.220 / 939 W 5th Ave
Lunch, dinner and small plates

G
ORSO
907.222.3232 / 737 W 5th Ave
Italian lunch & dinner

H
Phyllis' Seafood Cafe and Salmon Bake
907.274.6576 / 436 D St
Alaskan seafood, lunch, dinner

I
Sacks Cafe and Restaurant
907.276.3546 / 328 G St
Creative kitchen & dinner

J
Simon and Seafort's Salmon and Grill
907.273.5002 / 420 L St
Creative Alaskan cuisine

K
Sizzlin' Cafe
907.929.5400 / 523 W 3rd Ave
Homestyle lunch

L
Snow City Cafe
907.271.3487 / 1034 W 4th Ave
Gourmet breakfast & lunch

M
Solstice Bar and Grill
907.276.6756 / 720 W 5th Ave
Global taste with local flair

N
Urban Greens
907.276.0333 / 304 G St
Sushi & salads with ethnic flair

Agenda By Subject

THURSDAY, 2:00 PM - 3:15 PM
- Hazard Mitigation And Rural Community Resilience
  Tubughnenq 3

THURSDAY, 3:30 PM - 4:45 PM
- Tsunami Awareness
  Tikhahtnu D

ENERGY
MONDAY, 10:30 AM - 11:45 AM
- Using Novel Autonomous Technology To Study And Monitor The Arctic Environment From Millimeter-Scale
  Tikhahtnu C

MONDAY, 2:00 PM - 3:15 PM
- Wood Heat For Rural Alaska Homes: Your Choices Determine Heating Efficiency, Health & Safety
  Tubughnenq 5

MONDAY, 3:30 PM - 4:45 PM
- Clean Energy Policy
  Kahtnu 1

TUESDAY, 9:00 AM - 10:15 AM
- How To Prepare For An Occupation In Sustainable Energy
  Kahtnu 2

TUESDAY, 10:30 AM - 11:45 AM
- How To Talk To Your Community About Wood Smoke Risks And Mitigation Strategies
  Tubughnenq 5
- Hydraulic Fracturing Basics
  Kahtnu 2

TUESDAY, 2:00 PM - 3:15 PM
- Commercial Building Energy Efficiency As A Catalyst For Sustainability
  Kahtnu 1
- Susitna-Watana Hydro Project: Panel Discussion
  K'enakatnu Boardroom

TUESDAY, 3:30 PM - 4:45 PM
- Fukushima Radiation- Putting Things Into Perspective
  Tikhahtnu E

WEDNESDAY, 9:00 AM - 10:15 AM
- Point Thomson Project Update
  Tikhahtnu D

WEDNESDAY, 10:30 AM - 11:45 AM
- Kodiak's Renewable Energy Revelation
  Kahtnu 1
- Amchitka Underground Nuclear Test Site Monitoring
  Tikhahtnu C
- Experimental Use Of Tundra Sod For Rehabilitation At The Point Thomson Project
  Tikhahtnu D

THURSDAY, 2:00 PM - 3:15 PM
- Arctic Air Quality Workshop
  Kahtnu 2

WEDNESDAY, 9:00 AM - 10:15 AM
- The Role Of Estuaries In Ecosystem Health In Alaska
  Tikhahtnu E

WEDNESDAY, 10:30 AM - 11:45 AM
- Alaskan Estuaries: What We Know And Need To Know
  K'enakatnu Boardroom

WEDNESDAY, 2:00 PM - 3:15 PM
- Building Environmental Occupation Endorsements For A Rural Workforce
  K'enakatnu Boardroom

WEDNESDAY, 3:30 PM - 4:45 PM
- Our Work, Our Life: Fisheries, Seafood And Maritime Careers In Alaska
  Tubughnenq 3

ENVIRONMENTAL EDUCATION
MONDAY, 10:30 AM - 11:45 AM
- Ocean Science On The Outer Continental Shelf
  K'enakatnu Boardroom
- Youth And Adult Environmental Project Showcase (Part 1 of 2)
  Tubughnenq 4

MONDAY, 2:00 PM - 3:15 PM
- The Power Of A Flower: Developing Community Monitoring Programs To Understand Invasive Plant Impacts
  Tubughnenq 4

TUESDAY, 9:00 AM - 10:15 AM
- High School Science Programs For Rural Students
  Tubughnenq 4
- How To Prepare For An Occupation In Sustainable Energy
  Kahtnu 2

TUESDAY, 10:30 AM - 11:45 AM
- Youth And Adult Environmental Project Showcase (Part 2 of 2)
  Tubughnenq 4

TUESDAY, 2:00 PM - 3:15 PM
- Wildlife Tracking And Trail Cameras!
  Tubughnenq 4

TUESDAY, 3:30 PM - 4:45 PM
- Tips For Developing A Successful Community Environmental Program For Teens
  Tubughnenq 4

ENVIRONMENTAL REGULATION
MONDAY, 10:30 AM - 11:45 AM
- Communicating Effectively: Oil And A Changing Arctic
  Kahtnu 1

TUESDAY, 10:30 AM - 11:45 AM
- Ecosystem Assessments And Major Policy Failures
  Kahtnu 1

WEDNESDAY, 9:00 AM - 10:15 AM
- AKMAP Survey Results From Arctic Coastal Plains Surveys (Wetlands & Lake)
  Tubughnenq 3

WEDNESDAY, 10:30 AM - 11:45 AM
- Reciprocating Internal Combustion Engines, Boilers and Incinerators
  Tubughnenq 3
  Tubughnenq 4

Printed on recycled paper
**Agenda By Subject**

**WEDNESDAY, 2:00 PM - 3:15 PM**
- DEC Water Quality Standards Triennial Review
  - Tubughnenq 4
- How to Use Department Of Environmental Conservation Data for Environmental Mapping
  - Kahtnu 1

**WEDNESDAY, 3:30 PM - 4:45 PM**
- Alaska Water Quality Standards Antidegradation Policy Implementation Update
  - Kahtnu 1

**THURSDAY, 9:00 AM - 10:15 AM**
- Dispersant Use Policy in Alaska
  - Tubughnenq 5

**THURSDAY, 2:00 PM - 3:15 PM**
- Arctic Air Quality Workshop
  - Kahtnu 2

**FRIDAY, 8:00 AM - 5:00 PM**
- HAZWOPER
  - Tikhahtnu E

**FEDERAL FACILITIES**

**MONDAY, 10:30 AM - 11:45 AM**
- Using A Generic UFP-QAPP At A Large Complex Contaminated Site - The Galena Airport
  - Tikhahtnu D

**MONDAY, 3:30 PM - 4:45 PM**
- Red Devil Mine: A 2014 Action To Prevent Historic Tailings From Migrating To The Kuskokwim River
  - Kahtnu 2

**TUESDAY, 2:00 PM - 3:15 PM**
- National Park Service In Alaska: What Is It And Why Is Their Work Important To You?
  - Tikhahtnu E

**WEDNESDAY, 9:00 AM - 10:15 AM**
- Environmental Restoration Efforts At Federal Sites In Alaska
  - Tikhahtnu C

**WEDNESDAY, 10:30 AM - 11:45 AM**
- Alaskan Estuaries: What We Know And Need To Know
  - K’enakatnu Boardroom

**FILM FESTIVAL**

**WEDNESDAY, 2:00 PM - 3:15 PM**
- Tikhahtnu D

**WEDNESDAY, 3:30 PM - 4:45 PM**
- Tikhahtnu D

**THURSDAY, 9:00 AM - 10:15 AM**
- Tikhahtnu D

**THURSDAY, 10:30 AM - 11:45 AM**
- Tikhahtnu D

**FRIDAY, 9:00 AM - 10:15 AM**
- Tikhahtnu D

**FRIDAY, 10:30 AM - 11:45 AM**
- Tikhahtnu D

**FISH, WILDLIFE, HABITAT & FORESTS**

**MONDAY, 10:30 AM - 11:45 AM**
- Using Novel Autonomous Technology To Study And Monitor The Arctic Environment From Millimeter-Scale
  - Tikhahtnu C

**MONDAY, 2:00 PM - 3:15 PM**
- Relationship-Scale Conservation
  - Kahtnu 2
- The Power Of A Flower: Developing Community Monitoring Programs To Understand Invasive Plant Impacts
  - Tubughnenq 4

**MONDAY, 3:30 PM - 4:45 PM**
- Marine Mammal Consumption In Alaska: Contaminants, Benefits And Risks
  - Tikhahtnu D

**TUESDAY, 9:00 AM - 10:15 AM**
- Invasive Species In Rural Alaska (Part 1 of 2)
  - K’enakatnu Boardroom

**TUESDAY, 10:30 AM - 11:45 AM**
- Invasive Species In Rural Alaska (Part 2 of 2)
  - K’enakatnu Boardroom

**TUESDAY, 2:00 PM - 3:15 PM**
- Wildlife Tracking And Trail Cameras!
  - Tubughnenq 4

**TUESDAY, 3:30 PM - 4:45 PM**
- Assessing Wetland Functions & Services For National Resource Conservation Service
  - Kahtnu 1

**WEDNESDAY, 9:00 AM - 10:15 AM**
- AKMAP Survey Results From Arctic Coastal Plains Surveys (Wetlands & Lake)
  - Tubughnenq 3
- The Role Of Estuaries In Ecosystem Health In Alaska
  - Tikhahtnu E

**THURSDAY, 10:30 AM - 11:45 AM**
- Fish In Alaska: How Environmental Contaminants Impact Them & How Their Health Impacts Our Health
  - Tikhahtnu E

**THURSDAY, 2:00 PM - 3:15 PM**
- Methyl Mercury In Subsistence Pike And Burbot In Western Alaska
  - Tubughnenq 4

**THURSDAY, 3:30 PM - 4:45 PM**
- A Meaningful Role? Understanding A Key Phrase In The National Interest Lands Conservation Act
  - Kahtnu 1

**INDIAN GENERAL ASSISTANCE PROG (IGAP)**

**MONDAY, 2:00 PM - 3:15 PM**
- Learning The Basics And Getting Started: A Session For New IGAP Staff (Part 1 of 2)
  - Tikhahtnu C

**MONDAY, 3:30 PM - 4:45 PM**
- Learning The Basics and Getting Started: A Session For New IGAP Staff (Part 2 of 2)

**TUESDAY, 9:00 AM - 10:15 AM**
- EPA Tribal Coordinators: Regional Roundtable Discussion
  - Tikhahtnu C
- Indian General Assistance Program Working Session
  - Tubughnenq 5

**TUESDAY, 10:30 AM - 11:45 AM**
- Ensuring Field And Lab Competency Under IGAP Baseline Monitoring Projects
  - Tikhahtnu C

## SOLID WASTE & RECYCLING

**MONDAY, 2:00 PM - 3:15 PM**
- Living Lands & Waters-Inspiring Others To Take Action…One Piece Of Garbage At A Time!  
  Tiktuhtnu D
- How Landfill Paperwork Is Useful For More Than Origami!  
  Kahtnu 1

**MONDAY, 3:30 PM - 4:45 PM**
- Solid Waste Problem Solving From The Ground Up - Panel Discussion  
  Tubughnenq 5

**WEDNESDAY, 9:00 AM - 10:15 AM**
- Shipping Out Hazardous And Potentially Harmful Materials From Rural Alaska - Success Stories  
  Tubughnenq 5

**WEDNESDAY, 10:30 AM - 11:45 AM**
- Fail To Plan – Plan To Fail: Seasonal Planning For Rural Alaska Landfills  
  Tubughnenq 5

**WEDNESDAY, 2:00 PM - 3:15 PM**
- Hands On Solid Waste Presentation  
  Tubughnenq 5

**WEDNESDAY, 3:30 PM - 4:45 PM**
- Purchasing Heavy Equipment - Things To Look Out For When Selecting  
  Tubughnenq 5
- Managing Household Hazardous Waste & RCRA Regulations As They Pertain To Universal Waste & Used Oil  
  Kahtnu 2

**THURSDAY, 2:00 PM - 3:15 PM**
- Disposal Options For Construction And Demolition Waste In Rural Alaska  
  Tubughnenq 5

**THURSDAY, 3:30 PM - 4:45 PM**
- Stump The Chumps  
  Tubughnenq 5

**FRIDAY, 8:00 AM - 4:45 PM**
- 8-Hour Rural Alaska Landfill Administrator (RALA) Training for Village Administrators  
  Tubughnenq 3

## SUSTAINABILITY

**TUESDAY, 9:00 AM - 10:15 AM**
- Assessing Risk Perception And Community Disaster Resilience  
  Kahtnu 1
- Ecosystem Assessments And Major Policy Failures  
  Kahtnu 1

**TUESDAY, 10:30 AM - 11:45 AM**
- Commercial Building Energy Efficiency As A Catalyst For Sustainability  
  Kahtnu 1
- Creating Sustainable Communities  
  Kahtnu 2

**TUESDAY, 3:30 PM - 4:45 PM**
- Sustainable Living: Rhodiloo Rosea Potential For High Latitude Agriculture And Sustainable Firewood  
  Tubughnenq 5

**WEDNESDAY, 9:00 AM - 10:15 AM**
- Roads To Resources And Sustainable Economies In Alaska  
  K’enakatnu Boardroom

**THURSDAY, 3:30 PM - 4:45 PM**
- Valuing Ecosystem Services In The Mat-Su Borough  
  Tiktuhtnu E

**FRIDAY, 8:00 AM - 11:45 AM**
- Why Geotourism?  
  Tubughnenq 4

## YOUTH

**MONDAY, 10:30 AM - 11:45 AM**
- Youth And Adult Environmental Project Showcase (Part 1 of 2)  
  Tubughnenq 4

**MONDAY, 2:00 PM - 3:15 PM**
- The Power Of A Flower: Developing Community Monitoring Programs To Understand Invasive Plant Impacts  
  Tubughnenq 4

**MONDAY, 3:30 PM - 4:45 PM**
- Going Geospatial: Adventures In Mapping For Community Programs  
  Tubughnenq 4

**TUESDAY, 9:00 AM - 10:15 AM**
- High School Science Programs For Rural Students  
  Tubughnenq 4
- How To Prepare For An Occupation In Sustainable Energy  
  Kahtnu 2

**TUESDAY, 10:30 AM - 11:45 AM**
- Youth And Adult Environmental Project Showcase (Part 2 of 2)  
  Tubughnenq 4

**TUESDAY, 2:00 PM - 3:15 PM**
- Wildlife Tracking And Trail Cameras!  
  Tubughnenq 4

**TUESDAY, 3:30 PM - 4:45 PM**
- Tips For Developing A Successful Community Environmental Program For Teens  
  Tubughnenq 4

**WEDNESDAY, 3:30 PM - 4:45 PM**
- Our Work, Our Life: Fisheries, Seafood And Maritime Careers In Alaska  
  Tubughnenq 3
Alaska Forum on the Environment • February 3-7, 2014
